Issues in Financial Accounting Scott Henderson, Graham Peirson, Kathy Herbohn, Bryan Howieson, 2015-05-20 *Issues in Financial Accounting* addresses the controversial issues in financial accounting that have been debated by the preparers, users, auditors and regulators of financial statements. Henderson provides the best balance of technical and theoretical coverage in any *Financial Accounting* text on the market today with its presentation of real world examples, current debates and the underlying rationale for the accounting concepts demonstrated. Throughout the text, academic studies and professional accounting research are referenced to also provide a critical understanding of historical debates in financial accounting. The new 15th edition covers significant recent developments to the accounting standards in Australia and is based on the AASB standards and interpretations that have been issued up to the end of 2012. This includes the Australian Accounting Standard Board's AASB program of changes to make accounting standards equivalent to International Financial Reporting Standards.

Financial Reporting Janice Loftus, Ken Leo, Sorin Daniliuc, Michael Bradbury, Dean Hanlon, Leah Meng, Hong Nee Ang, James Hazelton, Belinda Luke, 2025-11-21 *Financial Reporting 5th Edition* delivers comprehensive coverage of financial reporting and company accounting for second and third year courses across Australia and New Zealand. This book brings readers up to date on the standards and describes their proper interpretation and real world application. Examples and mini case studies clarify the standards' roles throughout, giving readers a better understanding of complex processes, especially where the IPSAS deviate from IFRS. Readers also gain insight into smoothly navigating the transition for

a public sector entity which is moving to either IPSAS under accrual basis of accounting or to cash accounting IPSAS plus an overview of IPSAS adoption status and methods around the world Global public sector accounting is highly diversified resulting in ongoing moves to harmonise standards worldwide The IPSAS are international standards that largely follow the IFRS model but differ in some key areas and include standards in places where IFRS has none This book provides complete guidance to IPSAS with clear explanation and expert insight Understand the meaning and role of each standard Apply the standards to real world scenarios Manage the process of transition to IPSAS These standards are meant to be followed by all public sector entities including national and regional governments and local authorities They've been adopted by the UN NATO the European Commission and others and either have been or soon will be adopted in Malaysia Switzerland Spain and more
