State Power and Governance in Early Imperial China Chun Fung Tong, 2024-09-01 *State Power and Governance in Early Imperial China* delves into the governance and capacity of the state by providing an empirical historical study of the collapse of China's Qin Empire. In contrast to the popular view that the Qin fell suddenly and dramatically, this book argues that the collapse was rooted in persistent structural problems of the empire, including serious resource shortages experienced by local governments, inefficient communication between administrative units, and social tensions in the new territories. Rather than reducing Qin rulers to heartless villains who refused to adjust their policies and statecraft, this book focuses on the changes that the regime did make to meet these challenges. It reveals the various measures that Qin rulers devised to solve these problems, even if they were ultimately to no avail. The paradox of the Qin Empire seemed to be that although the regime's policies and reforms could theoretically have strengthened the state's power and improved the governance of the empire, their ramifications simultaneously exacerbated the malfunction of local governments and triggered the military failures that eventually destroyed the empire.

Middle Imperial China, 900-1350 Linda Walton, 2023-08-03 In this highly readable and engaging work, Linda Walton presents a dynamic survey of China's history from the tenth through the mid-fourteenth centuries, from the founding of the Song dynasty through the Mongol conquest when Song China became part of the Mongol Empire and Marco Polo made his famous journey to the court of the Great Khan. Adopting a thematic approach, she highlights the political, social, economic, intellectual, and cultural changes and continuities of the period, often conceptualized as Middle Imperial China. Particular emphasis is given to themes that inform scholarship on world history: religion, the state, the dynamics of empire, the transmission of knowledge, the formation of political elites, gender, and the family. Consistent coverage of peoples beyond the borders—Khitan, Tangut, Jurchen, and Mongol, among others—provides a broader East Asian context and introduces a more nuanced, integrated representation of China's past.

Cities of Jiangnan in Late Imperial China Linda Cooke Johnson, 1993-01-01 This book examines cities of the Jiangnan region of south-central China between the twelfth and nineteenth centuries, an area considered to be the model of a successfully developing regional economy. The six studies focus on the urban centers of Suzhou, Hangzhou, Yangzhou, and Shanghai. Emphasizing the regional focus, the authors explore the interconnections and sequential relationships between these major cities and analyze common themes such as the development of handicraft industry, transport and commerce, class structure, ethnic diversity, and internal immigration, and the social and political pressures generated by developments in manufacturing, taxes, and government politics. The book provides a valuable resource on commercial development and internal economic and social development in pre-modern China, particularly on specific regional development and the historical role of traditional Chinese cities.

Tribute System and Rulership in Late Imperial China Ralph Kauz, Morris Rossabi, 2022-04-11 Demanding and offering tribute is a most common feature in human societies and nothing special to China. In the course of the development of Neolithic and later societies

social classes have developed where persons who achieved superior positions first could demand presents or tribute from neighboring societies they defeated and then with the assistance of sturdy servants from their own people China was certainly no exception to that principle and one of the first terms for tax was thus gong tribute In China s early feudatory social system tribute was demanded from lower political entities and the mutual political relations were already highly developed during the Zhou dynasty 1045 256 BCE This system of inner Chinese relations became a sort of matrix when China expanded and achieved contact with countries which were more or less independent and thus the tribute system evolved The individual case studies in this volume focus on the latest manifestations of the tribute system in late Imperial China

Astral Sciences in Early Imperial China Daniel Patrick Morgan, 2017-08-03 An innovative history of astronomy in China 221 BCE 750 CE stressing plurality change and the unifying power of myth making **World History: Patterns of Interaction** McDougal-Littell Publishing Staff, 2004-03 **The Military Collapse of China's Ming Dynasty, 1618-44** Kenneth M. Swope, 2014-01-23 This book examines the military collapse of China s Ming Dynasty to a combination of foreign and domestic foes The Ming s defeat was a highly surprising development not least because as recently as in the 1590s the Ming had managed to defeat a Japanese force considered to be perhaps the most formidable of its day when the latter attempted to subjugate Korea en route to a planned invasion of China In contrast to conventional explanations for the Ming s collapse which focus upon political and socio economic factors this book shows how the military collapse of the Ming state was intimately connected to the deterioration of the personal relationship between the Ming throne and the military establishment that had served as the cornerstone of the Ming military renaissance of the previous decades Moreover it examines the broader process of the militarization of late Ming society as a whole to arrive at an understanding of how a state with such tremendous military resources and potential could be defeated by numerically and technologically inferior foes It concludes with a consideration of the fall of the Ming in light of contemporary conflicts and regime changes around the globe drawing attention to climatological factors and developments outside state control Utilizing recently released archival materials this book adds a much needed piece to the puzzle of the collapse of the Ming Dynasty in China *Forest and Land Management in Imperial China* N. Menzies, 1994-09-01 Although China is generally considered to have suffered continuous deforestation over most of its history forests were protected or even planted and maintained for centuries in some places This study identifies six such cases It uses historical evidence to show that individuals and communities act to manage resources sustainably for a number of reasons including economic benefit religious or symbolic purposes and that sustainability of the management system depends on the form of control exerted over the resource **The Price of Collapse** Timothy Brook, 2026-01-13 How climate change ushered in the collapse of one of history s mighty empires In 1644 after close to three centuries of relative stability and prosperity the Ming dynasty collapsed Many historians attribute its demise to the Manchu invasion of China but the truth is far more profound The Price of Collapse provides an entirely new

approach to the economic and social history of China exploring how global climate crisis spelled the end of Ming rule The mid seventeenth century witnessed the deadliest phase of the Little Ice Age when temperatures and rainfall plunged and world economies buckled Timothy Brook draws on the history of grain prices to paint a gripping portrait of the final tumultuous years of a once great dynasty He explores how global trade networks that increasingly moved silver into China may have affected prices and describes the daily struggle to survive amid grain shortages and famine By the early 1640s as the subjects of the Ming found themselves caught in a deadly combination of cold and drought that defied all attempts to stave off disaster the Ming price regime collapsed and with it the Ming political regime A masterful work of scholarship The Price of Collapse reconstructs the experience of ordinary people under the immense pressure of unaffordable prices as their country slid from prosperity to calamity and shows how the market mediated the relationship between an empire and the climate that turned against it *Beyond Collapse* Ronald K. Faulseit, 2016 This book interprets how ancient civilizations responded to various stresses including environmental change warfare and the fragmentation of political institutions It focuses on what happened during and after the decline of once powerful regimes and posits that they experienced social resilience and transformation instead of collapse **CUET PG Chinese - Question Bank (2400 MCQs Chapterwise)** Mocktime Publication, 2400 MCQs CUET PG Question Bank Chinese CUEG PG Previous Papers CUET PG Syllabus CUET PG Exam Pattern **Hawai'i Reader in Traditional Chinese Culture** Victor H. Mair, Nancy Shatzman Steinhardt, Paul R. Goldin, 2005-01-31 The Hawai i Reader in Traditional Chinese Culture is a collection of more than ninety primary sources all but a few of which were translated specifically for this volume of cultural significance from the Bronze Age to the turn of the twentieth century They take into account virtually every aspect of traditional culture including sources from the non Sinitic ethnic minorities **Reimagining the International** Yongjin Zhang, 2025-01-07 A rich and enlightening study of Chinese international relations this book examines Chinese world ordering before the West as both intellectual history and institutional practices in deep world history It shows how engaging China s historical pursuit of ordering the world can contribute to our search for global foundations of international thought Offering a distinctive English School perspective this volume is a call to put studies of Chinese international relations in their proper historical context It argues that such an approach leads to a better understanding of Chinese ideas and statecraft and contends that reimagining the international is indispensable for a fruitful pursuit of knowledge production in the construction of global IR *What happened in 3rd Century* Dr. Hau B Lau, 2025-08-09 3rd Century is the third volume in the comprehensive Twenty Centuries Twenty Volumes series examining one of history s most transformative and chaotic periods This meticulously researched work explores the catastrophic collapse of the Roman Empire s golden age the fall of China s Han Dynasty and the simultaneous crises that reshaped three major civilizations between 200 300 CE The book chronicles the Military Anarchy that saw fifty emperors rise and fall in as many years the devastating Plague of Cyprian that decimated populations across the Mediterranean and the

revolutionary Sasanian Persian Empire that humiliated Rome by capturing Emperor Valerian Through detailed analysis of primary sources and archaeological evidence it reveals how climate change economic collapse barbarian invasions and religious transformation converged to end the ancient world's stability From the Syrian Empresses who wielded unprecedented power behind the throne to the philosophical innovations of Plotinus and Neoplatonism from the breakdown of the Silk Road trade networks to the rise of Christian persecution under Decius and Diocletian this volume captures the full scope of third century upheaval The narrative seamlessly weaves together military campaigns economic analysis religious developments and social transformation to show how crisis became the catalyst for the medieval world The book's global perspective sets it apart comparing the Roman crisis with the Three Kingdoms period in China and examining how climate cooling affected agricultural societies worldwide Richly illustrated with maps timelines and architectural photographs it brings to life the fortified cities militarized villas and desperate defensive measures that characterized this age of survival 3rd Century demonstrates how the darkest period in Roman history ultimately produced the innovations military administrative and religious that would define the late empire and early medieval period Essential reading for historians students and anyone seeking to understand how civilizations adapt transform and endure through existential crisis

Quest for Status Deborah Welch Larson, Alexei Shevchenko, 2019-02-26 A look at how the desire to improve international status affects Russia s and China s foreign policies Deborah Welch Larson and Alexei Shevchenko argue that the desire for world status plays a key role in shaping the foreign policies of China and Russia Applying social identity theory the idea that individuals derive part of their identity from larger communities to nations they contend that China and Russia have used various modes of emulation competition and creativity to gain recognition from other countries and thus validate their respective identities To make this argument they analyze numerous cases including Catherine the Great s attempts to westernize Russia China s identity crises in the nineteenth century and both countries responses to the end of the Cold War The authors employ a multifaceted method of measuring status factoring in influence and inclusion in multinational organizations military clout and cultural sway among other considerations Combined with historical precedent this socio psychological approach helps explain current trends in Russian and Chinese foreign policy

Chiang Kai-shek's Politics of Shame Grace C. Huang, 2022-03-07 Once a powerful figure who reversed the disintegration of China and steered the country to Allied victory in World War II Chiang Kai shek fled into exile following his 1949 defeat in the Chinese civil war As attention pivoted to Mao Zedong s communist experiment Chiang was relegated to the dustbin of history In Chiang Kai shek s Politics of Shame Grace C Huang reconsiders Chiang s leadership and legacy by drawing on an extraordinary and uncensored collection of his diaries telegrams and speeches stitched together by his secretaries She paints a new intriguing portrait of this twentieth century leader who advanced a Confucian politics of shame to confront Japanese incursion into China and urge unity among his people In also comparing Chiang s response to imperialism to those of Mao Yuan Shikai and Mahatma Gandhi Huang widens the implications of her findings to explore alternatives to Western expressions of nationalism and modernity and reveal how leaders of vulnerable states can use potent cultural tools to inspire their country and contribute to an enduring national identity
