Investing Tips

Grampa Taught Us Victor Eber, Elizabeth Masson, Eric Eber, 2001. With so many money management books on the market, I decided to write this book from the perspective of two of my grandchildren. In 174 pages adorned with cartoons and other graphics, I try to offer guidance on money and markets in a style devoid of jargon. There are no short, easy methods for doubling your money. The book is, however, a road map to help traverse today's baffling financial highways. My investing ideas, drawn from 45 years of money management and teaching experience, are keyed strictly to a get-rich-slowly strategy. Stockbrokers may not like the strong warnings aimed at not-so-independent advisers. Stock investing is my investment of choice with a dedication to fundamental valuation for long-term investing planning today for financing young children's education as well as retirement planning for adults. My dedication to stock investing stems from statistical comparisons compiled by a leading research firm which shows over a 68-year period, stocks have outperformed bond Treasuries and bank CD's by wide margins. For most, my best bet is to invest in well-chosen, no-load mutual funds. Hold for the long term, put in a fixed amount periodically, and do not withdraw dividends. That's my strategy.

Real Estate Recession Riches - Top 10 Real Estate Investing Tips That Don't Suck! Cory Boatright, 2013-02. Allow me to share my story with you. My name is Cory Boatright. I am 35 years old, and since my early twenties, I have started, run, or been directly involved with almost 40 different companies. I have sold everything from Ginsu knives on eBay to Kirby vacuum cleaners door-to-door all the way to 50,000 high-end electronics. Out of the forty-something companies, only TWO of them ever proved to be worthwhile endeavors. The other thirty-eight, I decided to call business therapy. Interestingly enough, both of the successful companies harnessed the power of the Internet to make their profits. After bringing in almost 4 million dollars in sales from my first start-up, I sold it and directed my passion to the world of real estate investing. Why real estate? Well, most of my affluent customers in my first business owned real estate, so I knew there was something to be learned in that industry. I was a complete novice to it. And, oh, by the way, before I forget, did I mention that I didn't even graduate from high school? Apparently, my drive to succeed coupled with my persistence to not fail clouded my judgment of the value of a formal education. So instead, I settled for a GED. I'm not looking for any pity party. I just mentioned this to demonstrate that if a high school dropout can make it, the doors are open for just about anyone else to do it, too. Now, fast forward a bit into my real estate experiences. I started out being a bird dog, which means I was out finding good deals on properties and getting paid a finder's fee for it. That fee was usually 500-1,500. After I learned how much money the investor was making selling the houses, I was bringing him. I quickly learned how to assign wholesale and flip distressed properties. That brought in checks anywhere from 3,000-10,000. Not bad, but I had a hunch those properties were worth a lot more after they were fixed up. So I decided to put together a skeleton rehab crew.

and thought I would make 15 000 30 000 per deal but I was sadly mistaken My rehab attempts ended up being more of a mirage instead of a real profit center My 30 000 paydays actually came out to be more around 17 500 after considering all the contractor frustrations material costs labor marketing selling and other holding costs Needless to say I had more fun assigning contracts It wasn't until around 2004 that I stumbled my way through a short sale and I made over 30 000 on that deal That was the most money that I had ever made on one single real estate transaction I couldn't believe the lender would accept less than what was owed for a payoff I was immediately hooked and quickly learned everything possible about the short sale process The more I learned about Short Sales the more I was asked by other investors to partner on deals I quickly became known as the local go to guy for doing short sales Other investors continually asked me how they too could learn to do what I was doing So after being asked by numerous fellow investors to teach and coach them on the subject I decided to dive in head first and write my first information product home study course What I discovered in real estate investing was something I never expected Not only was the short sale niche secretive but the entire industry And the real truth was shared only amongst a small tight knit group of investors but not anymore I've cornered the top dogs in their niche of real estate investing and forced them to talk When you finish reading Real Estate Recession Riches you are going to be smarter and wiser newbie or advanced real estate investor Period Remember be a servant Cory Boatright Cory Boatright is a flat out ge

Share Market Success Tips Hseham Amrahs,2025-02-04 The stock market attracts investors seeking significant returns Success requires patience understanding market trends and strategic investments Just like planting a tree and waiting for it to bear fruit stock investments take time to mature With the right knowledge one can turn small investments into substantial gains This book serves as a valuable guide teaching the basics of stock market investing for beginners

Buy Your Freedom! Todd Nethercutt,2016-01-18 Have you ever found yourself sitting in front of the TV watching House Hunters or a similar show to see a young newlywed couple fresh out of school looking at starter homes in the 800 000 range while thinking to yourself How in the world can they afford that This book holds the answer to that question and many more A long time ago in an America far far away we lived within our means spent no more than our paychecks would allow and only resorted to borrowing money from other people in the most severe of economic disasters or

emergencies Oh how times change Today we borrow money from other people for almost every expense over 200 We now call it financing or buying on credit This is simply borrowing money from other people to buy the things we normally could not afford In addition most of us know personally or have gone through the process ourselves someone who has declared bankruptcy to get out of their debt problems This is also normal and even approved practice today What we have somehow evolved to consider to be normal acceptable rules of finance is shameful at best There have been countless books on personal finance published before this one They typically cover the same topics Make a monthly budget wisely choose your mutual funds put away an emergency fund for a rainy day save something for retirement and something for your kids education Based on our current financial predicament these books apparently have not worked very well This book is not one of those This book is more of a Chuck Norris Roundhouse Kick to the Financial Face Most of you will not be prepared to hear what this book says but sometimes tough love is the best kind You have been warned Buyer Beware
