Altruism In World Religions:

Altruism in World Religions Suzanne Neusner, Bruce Chilton, 2005-11-08 In 1830 philosopher Auguste Comte coined the term altruism to provide a general definition for the act of selflessly caring for others But does this modern conception of sacrificing one's own interests for the well being of others apply to the charitable behaviors encouraged by all world religions In *Altruism in World Religions* prominent scholars from an array of religious perspectives probe the definition of altruism to determine whether it is a category that serves to advance the study of religion Exploring a range of philosophical and religious thought from Greco Roman *philia* to Judaism Christianity and Islam from Hinduism in India to Buddhism and the religions of China and Japan the authors find that altruism becomes problematic when applied to religious studies because it is in fact a concept absent from religion Chapters on Judaism Christianity and Islam reveal that followers of these religions cannot genuinely perform self sacrificing acts because God has promised to reward every good deed Moreover the separation between the self and the other that self sacrifice necessarily implies runs counter to Buddhist thought which makes no such distinction By challenging our assumptions about the act of self sacrifice as it relates to religious teachings the authors have shown altruism to be more of a secular than religious notion At the same time their findings highlight how charitable acts operate with the values and structures of the religions studied *The Practice of Altruism* Ruben Lf Habito, Keishin Inaba, 2008-09 The study of altruism and altruistic behavior has caught the attention of social scientists especially in recent years What motivates individuals to cultivate attitudes and actions that promote the wellbeing of others at the expense of or at the risk of negative consequences for their own In our contemporary global society marked by conflict and violence among different sectors of the population in various regions of the world and wherein religion can be a factor that exacerbates such conflict and violence harnessing the power of religion towards directions of reconciliation creativity and altruistic action remains a crucial task for humankind This volume addresses a question especially relevant in our day do people who profess religious commitment or affiliation in a particular religious community tend to nurture altruistic kinds of attitude and action more than others Social scientists present results of their empirical studies on Japanese society as well as on North American European Indian and Thai societies to focus on this issue and offer insightful reflections on the relationship between religion and society ***The Oxford Handbook of Religion and Economic Ethics*** Albino Barrera, Roy C. Amore, 2024 This innovative collection of essays draws together and compares the teachings of world and regional religions on the subject of economic morality *Altruism and Altruistic Love* Stephen G. Post, Lynn G. Underwood, Jeffrey P. Schloss, William B. Hurlbut, 2002-03-28 The concept of altruism or disinterested concern for another's welfare has been discussed by everyone from theologians to psychologists to biologists In this cutting edge book evolutionary neurological developmental psychological social cultural and religious aspects of altruistic behavior are examined by renowned researchers The result is a collaborative and provocative look at one of humanity's essential and defining characteristics *The Oxford Handbook of*
