

AMA Formatting Resources: A guide for CommonHealth authors and reviewers

All submissions to CommonHealth should use [American Medical Association \(AMA\) style, 11th edition](#). Formatting your submission in AMA style reduces processing time and facilitates the peer review process. For authors who are new or unfamiliar with AMA style, we have compiled a list of helpful resources. *This list is not exhaustive and is not meant to be used in place of the AMA Manual of Style*. Many university libraries provide free access to this and other helpful resources for students, faculty, and staff. Authors may also consider contacting a librarian for further support. The link to contact a librarian or subject matter expert from Temple University can be found [here](#).

Writing Research Papers James D. Lester, 1990 The definitive research paper guide Writing Research Papers combines a traditional and practical approach to the research process with the latest information on electronic research and presentation Key Benefits This market leading text provides students with step by step guidance through the research writing process from selecting and narrowing a topic to formatting the finished document Key Topics Plagiarism Documentation Evaluating Sources

Effective Scientific Communication Cristina Hanganu-Bresch, Kelleen Flaherty, 2020 Selfish scientists won't share new findings ran one headline in The Onion The story was about a group of rebellious scientists who made a groundbreaking life saving discovery but decided to hold on to it unless they were paid a ludicrous reward Imagine that for a second science happening but without anyone finding out about it

1986 AMA Educators' Proceedings American Marketing Association, 1986 **How to Write and Publish a Scientific Paper** Barbara Gastel, Robert A. Day, 2022-06-30 Thoroughly updated throughout this classic practical text on how to write and publish a scientific paper takes its own advice to be as clear and simple as possible The purpose of scientific writing according to Barbara Gastel and Robert A Day is to communicate new scientific findings Science is simply too important to be communicated in anything other than words of certain meaning This clear beautifully written and often funny text is a must have for anyone who needs to communicate scientific information whether they're writing for a professor other scientists or the general public The thoughtfully revised 9th edition retains the most important material including preparing text and graphics publishing papers and other types of

writing and plenty of information on writing style while adding up to date advice on copyright presenting online identifying authors creating visual abstracts and writing in English as a non native language A set of valuable appendixes provide ready reference including words and expressions to avoid SI prefixes a list of helpful websites and a glossary Students and working scientists will want to keep How to Write and Publish a Scientific Paper at their desks and refer to it at every stage of writing and publication

Maintaining the Integrity of Scientific Research United States. Congress. House. Committee on Science, Space, and Technology.
