

Aloha Takeout Guest Management Screen

- 1 **Dashboard** — Holds general information about order promise and ready times, and contains a configurable message.
- 2 **Caller ID lines** — Shows the phone number for each customer currently calling in an order.
- 3 **Search bar** — Allows you to search for customers already in the database, by phone number or name. Also useful for starting a new customer record.
- 4 **Sort tabs** — Allows you to sort customers by name, phone number, or zip code.
- 5 **Order mode buttons** — Select from Walk In, Call Up, Delivery, or Curbside order modes.
- 6 **Count per order type** — Shows the number of open takeout or delivery orders in the current business day.

- 7 **Order summary panel** — Provides information about the currently selected customer and their most recent order. Contains buttons that enable you to edit customer information or add a new customer, and for repeating a previous order or for starting a new order. Panel appears automatically when needed, or when manually selected.
- 8 **Customer search results panel** — Lists all customers found meeting the search criteria.
- 9 **Delayed Order button** — Enables you to create an order for preparation later than the normal promise time, from a few minutes to a maximum of five years.
- 10 **Navigation buttons** — Provide access to the Order Management screen, or the Aloha POS screens.

Working with Guest Records

Touch a **Caller ID** button to search by phone number, or start typing the **customer name** to search by name. The search results panel changes as you type, to display customers that match. Touch the **correct name**, when found. Use the scroll bar to see more names.

Touch **Add Guest** to add a new guest record, or **Edit Guest** to edit an existing guest record. An onscreen keyboard appears, allowing you to type customer information. Touch **Tab** to move from one text box to the next. Touch the **tabs** in the **Customer Data** screen to add different types of information about the guest.

Touch **Repeat Order** to start a new order identical to the last order shown. This button accesses the Aloha order entry screen, with the items from the previous order already selected. You can place the order as-is, or modify it as needed.

Aloha Reference Guide

**CCPS (Center for Chemical Process
Safety)**

Aloha Reference Guide:

Guidelines for Use of Vapor Cloud Dispersion Models CCPS (Center for Chemical Process Safety), 2010-09-07 The second edition of this essential reference updates and combines two earlier titles to capture the many technological advances for predicting the footprint of a vapor cloud release Cited by EPA in its 1996 document Off Site Consequence Analysis Guidance the aim of the book is to encourage and facilitate the development and use of dispersion modeling as an everyday tool providing practical understanding of basic physical and chemical principles guidance in selecting release scenarios and the best available models and information and examples on how to run some models and interpret outputs Equally useful to beginners and experts it compares 22 programs based on input from model developers and presents 7 examples of typical accidental release scenarios The book comes with a disk providing input and output data for scenarios *Reference Guide to Africa* Alfred Kagan, Atoma Batoma, 2014-10-16 This third edition of the Reference Guide to Africa explains the most important resources for the study of the continent of Africa It contains a general sources section and a larger disciplinary oriented section All sources are annotated A new edition is sorely needed since the last edition was published nine years ago The previous editions have been successfully used in research libraries worldwide since 1999 and it has been used to teach several African studies research courses The book provides an orientation for researching almost any topic in the arts humanities and social sciences concerning the continent of Africa and all of its countries and ethnic groups The first part explains and lists portals databases bibliographies indexes guides encyclopedias country sources biography primary sources government publications and statistics The second part presents 16 subject oriented chapters mostly in the arts humanities and social sciences from agriculture and food security to women studies It covers sources that broadly cover the continent or in some cases only North Africa and the Middle East It generally excludes sources limited to one country or region of Africa except for North Africa because of the nature of the literature One third of the sources in this edition are new and nearly half of them are available in electronic format There are author title and subject indexes This unique work is intended for students teachers librarians and researchers It likely will be used most by reference librarians and teachers for students in high school through graduate studies It will also be used independently by undergraduate and graduate students It can be used to answer simple reference questions provide the resources for an undergraduate paper or for comprehensive work by advanced students and researchers **Disaster Recovery Project Management** Randy R. Rapp, 2011 The scope of disasters ranges from man made emergency to natural calamity from a kitchen grease fire to a hurricane or volcanic eruption It may be just one house that is destroyed or perhaps a whole infrastructure system is threatened While each type of event requires a very different scale and type of immediate response the project management challenges that face restoration and reconstruction professionals after the emergency phase is complete are remarkably similar Using insights acquired through decades of real world experience as well as from his academic research and teaching responsibilities the author explains

pertinent requirements and methods for the contractors and other professionals who bring order from chaos The first section of the book surveys the managerial skills required to confront the range of disasters that might be encountered and the different project environments involved The second section examines the details of project management and administration from materials management to health and safety The third and final section provides an overview of restoration techniques from restorative drying to debris management and demolition This is the first systematic presentation of the tools and skills needed for disaster recovery project management It is designed primarily for contractors both large and small firms although it will also be of value for those who might hire them the communities they serve and their organizational partners in the disaster recovery effort Those who are new to disaster restoration and reconstruction will find the volume particularly useful Focused on informing the management of projects that recover the built environment after emergency conditions sufficiently stabilise the volume supplements and complements books devoted to conventional construction or emergency relief management

Compliance Guidance and Model Risk Management Program for Water Treatment Plants Peter S. Puglionesi,1998 *Learning Objects* Keith Harman,Alex Koohang,2007 Telecommunications Engineer's Reference Book Fraidoon Mazda,2014-06-28 Telecommunications Engineer s Reference Book maintains a balance between developments and established technology in telecommunications This book consists of four parts Part 1 introduces mathematical techniques that are required for the analysis of telecommunication systems The physical environment of telecommunications and basic principles such as the teletraffic theory electromagnetic waves optics and vision ionosphere and troposphere and signals and noise are described in Part 2 Part 3 covers the political and regulatory environment of the telecommunications industry telecommunication standards open system interconnect reference model multiple access techniques and network management The last part deliberates telecommunication applications that includes synchronous digital hierarchy asynchronous transfer mode integrated services digital network switching systems centrex and call management This publication is intended for practicing engineers and as a supplementary text for undergraduate courses in telecommunications *Kemper County ICGG Project* ,2010 Broadcast Engineer's Reference Book EPJ Tozer,2012-11-12 The current and definitive reference broadcast engineers need Compiled by leading international experts this authoritative reference work covers every aspect of broadcast technology from camera to transmitter encompassing subjects from analogue techniques to the latest digital compression and interactive technologies in a single source Written with a minimum of maths the book provides detailed coverage and quick access to key technologies standards and practices This global work will become your number one resource whether you are from an audio video communications or computing background Composed for the industry professional practicing engineer technician or sales person looking for a guide that covers the broad landscape of television technology in one handy source the Broadcast Engineer s Reference Book offers comprehensive and accurate technical information Get this wealth of information at your fingertips Utilize extensive illustrations more than
