Pillars in the History of Biblical Interpretation, Volume 3 Stanley E. Porter, Zachary K.

Dawson, 2021-06-07 This third volume like its predecessors adds to the growing body of literature concerned with the history of biblical interpretation. With eighteen essays on nineteen biblical interpreters, volume 3 expands the scope of scholars both traditional and modern covered in this now multivolume series. Each chapter provides a biographical sketch of its respective scholar, an overview of their major contributions to the field, explanations of their theoretical and methodological approaches to interpretation and evaluations and applications of their methods. By focusing on the contexts in which these scholars lived and worked, these essays show what defining features qualify these scholars as pillars in the history of biblical interpretation. While identifying a scholar as a pillar is somewhat subjective, this volume defines a pillar as one who has made a distinctive contribution by using and exemplifying a clear method that has pushed the discipline forward at least within a given context and time period. This volume is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the field of biblical studies has developed and how certain interpreters have played a formative role in that development.

, *Rhetorical Investigations* Leslie Gardner, 2013-04-12

Rhetorical analysis of texts exposes plausible truths and presumptions implied by the writer's presentation. In this volume, Leslie Gardner analyses the master psychologist Jung, who claimed to be expert at uncovering personal psychological truths. In his theoretical writings, his rhetoric reveals philosophical ramifications which bear strong similarities to those of the rhetorician of the 18th century Italian philosopher Giambattista Vico. This book is driven by an interest in arguing that it is possible to read Jung's works easily enough when you have a set of precepts to go by. The paradox of scientific discovery being set out in Jung's grotesque and arcane imagery begins to seem a startling and legitimate psychology for the 21st

century It is time Jungian studies took on this most appropriate examination of analytical psychology Bringing Vico to bear directly on Jung s thought has only been cursorily attempted before although much alluded to We find indeed that some of Jung s ideas derive directly from rhetorical theory and this volume proposes to highlight Jung s innovations and bring him into forefront of contemporary psychological thought Rhetorical Investigations will be of interest to analysts and academics and also to those studying philosophy and psychology

Josephus Geographicus Yuval Shahar,2004 Why did ancient historians include geographical descriptions in their historical works How does the spatial description fulfill its goal In this book Yuval Shahar discusses these two questions showing that the answers depend on the particular historian and the genre in which he is writing He analyzes and compares the presentation of geographical space in the writings of Herodotus Thucydides Polybius and Strabo with selected illustrations from early Latin historiography It is clear from this that Flavius Josephus consciously and definitively follows the generic approach of Polybius and Strabo Moreover Josephus descriptions of parts of the Land of Israel are structured in the same way as the descriptions in Strabo s Geography and reflect a hidden dialogue between Josephus and Strabo Awareness of these generic characteristics enables a new reading of some of Josephus most famous descriptions such as Jotapata Gamala and Masada and establishes his credibility
