Korea's Premier Collection of Classical Literature ,2019-03-31 This is the first book in English to offer an extensive introduction to the Tongmun's n Selections of Refined Literature of Korea the largest and most important Korean literary collection created prior to the twentieth century as well as translations of essays from key chapters The Tongmun's n was compiled in 1478 by S K j ng 1420 1488 and other Chos n literati at the command of King S ngjong r 1469 1494 It was modeled after the celebrated Chinese anthology Wen Xuan and contains poetry and prose in an extensive array of styles and genres The Translators

Introduction begins by describing the general structure of the Tongmunŭn and contextualizes literary output in Korea within the great sweep of East Asian literature from the eighth to the fifteenth centuries. The entire Tongmunŭn as well as all of the essays selected for translation were written in hanmun as opposed to Korean vernacular, which points to a close literary connection between the continent and the peninsula. The Introduction goes on to discuss the genres contained in the Tongmunŭn and examines style as revealed through prosody. The translation of two of these genres, treatises and discourses in four books of the Tongmunŭn, showcases prose writing and the intellectual concerns of the age. Through their discussions of morality, nature, and the fantastic, we see Daoist, Buddhist, and Confucian themes at work in essays by some of Korea's most distinguished writers among them Yi Kyubo, Yi Saek, Yi Chehyŏn, and Ch'ng Tojŏn. The translations also include annotations and extensive cross references to classical allusions in the Chinese canon, making the present volume an essential addition to any East Asian literature collection.
