Many do you think the profit margin for Anagene's cartridges has been fluctuating? Is there attributable to the actual number of cartridges sold or the change in the number of the existing system that are using the cartridge the most?

The actual number of cartridges sold has not changed. The company looked at the estimated number of cartridges produced and reduced the quantity of the cartridges per unit. This led to the estimated number of cartridges change. Finally, comparing the number of cartridges sold to the quantity of cartridges produced per unit.
