Study of the human organism and its internal body

Anatomy

The study of the structure and organization of the human body

Physiology

The study of the functions and processes of the human body

Structural levels

How studying the structural levels of the body can help us understand the human body

- 1. Chemical level: study of atoms and molecules
- 2. Cellular level: study of cells and tissues
- 3. Tissue level: study of groups of cells
- 4. Organ level: study of organs
- 5. System level: study of body systems
- 6. Organism level: study of the whole body
