Alphabetic Labyrinth The Letters In History And Imagination:

The Alphabetic Labyrinth Johanna Drucker, 1995 The Letter and the Cosmos Laurence de Looze, 2016-01-01 The Letter and the Cosmos is a sharp and entertaining examination of how languages letterforms orthography and writing tools have reflected our hidden obsession with the alphabet **Language in the Visual Arts** Leslie Ross, 2014-05-23 This book discusses text and image relationships in the history of art from ancient times to the contemporary period across a diversity of cultures and geographic areas Focusing on the use of words in art and words as art forms thematic chapters include Pictures in Words Words in Pictures Word Picture Puzzles Picture Word Puzzles Words as Images The Power of the Word and Monumental and Moving Words Chapter subsections further explore cross cultural themes Examining text and image relationships from the obvious to the elusive the puzzling to the profound the minor to the major the book demonstrates the diverse ways in which images and writing have been combined through the ages and explores the interplay between visual and written communication in a wide range of thought provoking examples A color insert is included Instructors considering this book for use in a course may request an examination copy here *Bibliographical Analysis* G. Thomas Tanselle, 2009-07-02 Studying printed books as physical objects can reveal not only how books were produced but also how their design and layout features emerged and came to convey meanings This concise and accessible introduction to analytical bibliography in its historical context explains in clear non specialist language how to find and analyze clues about a book s manufacture and how to examine the significance of a book s design Written by one of the most eminent bibliographical and textual scholars working today the book is both a practical guide to bibliographical research and a history of bibliography as a developing field of study For all who use books this is an ideal starting point for learning how to read the object along with the words **Inventions in Reading and Writing** Cory MacPherson, 2016-12-15 The earliest civilizations developed writing systems in order to keep records Since then writing has evolved to become a complex form of communication In fact reading and writing today are often hi tech endeavors Inventions in Reading and Writing From Calligraphy to Kindles discusses in chronological order the invention of calligraphy paper moveable type and Kindle e Readers The book demonstrates the effect these innovations have had on readers writers and the world at large The book also draws connections between the inventions themselves These connections are often surprising such as the link between moveable type e books and our modern idea of individual nations with unique identities **Explaining Mantras** Robert A. Yelle, 2004-03 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company **Figures of Speech** Tim Cassedy, 2019-01-03 Tim Cassedy s fascinating study examines the role that language played at the turn of the nineteenth century as a marker of one s identity During this time of revolution U S French and Haitian and globalization language served as a way to categorize people within a world that appeared more diverse than ever Linguistic differences especially among English speakers seemed to validate the emerging national racial local and regional identity categories that

took shape in this new world order Focusing on six eccentric characters of the time from the woman known as Princess Caraboo to wordsmith Noah Webster Cassedy shows how each put language at the center of their identities and lived out the possibilities of their era s linguistic ideas The result is a highly entertaining and equally informative look at how perceptions about who spoke what language and how they spoke it determined the shape of communities in the British American colonies and beyond This engagingly written story is sure to appeal to historians of literature culture and communication to linguists and book historians and to general readers interested in how ideas about English developed in the early United States and throughout the English speaking world

The Joyce of Everyday Life Vicki Mahaffey, 2024-09-13 Winner of the American Conference on Irish Studies Robert Rhodes Prize for Books on Literature Part of James Joyce s genius was his ability to find the poetry in everyday life For Joyce even a simple object like a table becomes magical a board that was of the birchwood of Finland and it was upheld by four dwarfmen of that country but they durst not move more for enchantment How might we learn to regain some of the child like play with language and sense of delight in the ordinary that comes so naturally to Joyce The Joyce of Everyday Life teaches us how to interpret seemingly mundane objects and encounters with openness and active curiosity in order to attain greater self understanding and a fuller appreciation of others Through a close examination of Joyce s joyous musical prose this book shows how language provides us with the means to revitalize daily experience and social interactions across a huge diverse and everchanging world Acclaimed Joyce scholar Vicki Mahaffey demonstrates how his writing might prompt us to engage in a different kind of reading treating words and fiction as tools for expanding the boundaries of the self with humor and feeling A book for everyone who loves language The Joyce of Everyday Life is a lyrical romp through quotidian existence

Queer and Bookish Jason Edwards, 2022 Queer and Bookish Eve Kosofsky Sedgwick as Book Artist represents the first book length study to explore the intersections of Sedgwick s critical writing poetry and most importantly book art making the case that her art criticism especially her meditations on domestic and nineteenth century photography and artist s book projects are as formally complex and brilliant conceptually significant and life changing as her literary criticism and theory In addition the book represents a significant intervention into recent debates about reparative reading surface reading and the descriptive turn across the humanities because of its sustained positive accounts on Sedgwick s books as visual textural and material objects The book ranges across Sedgwick s published output from The Coherence of Gothic Conventions 1980 to the posthumously published The Weather in Proust 2011 and features her meditations on a wide variety of art historical topoi including Judith Scott s queer crip fiber art the anality of Polykleitos s Doryphorus queer Modernist typography Piranesi s punitive space Duncan Grant and Vanessa Bell s queer holy family Manet s frontality and thalassic aesthetics fat and thin aesthetics of various stripes and the queer photography of Anna Atkins Clementina Hawarden and Julia Margaret Cameron Baron De Mayer Eugene Atget and P H Emerson as well as David Hockney Ken Brown and her own father a NASA lunar photographer The book climaxes with two chapter length explorations
