Altar Worker Agenda Guide

Tormod Engelsviken, Knud Jørgensen

Altar Worker Agenda Guide:

A Perfect Fit Jenna Weissman Joselit, 2014-04-29 A striking and inventive social history of the role of clothing in the making of modern Americans While fashions of the rich and famous have been lushly chronicled little attention has been paid to the meaning of clothes for everyone else Yet between 1890 and the outbreak of World War II as ready to wear came into its own the clothes of ordinary Americans claimed the nation's attention Allied with civic virtue fashion now played an increasingly important role in shaping the national character Drawing on a wealth of sources from advertisements trade journals and health manuals to sermons science and songs acclaimed historian Jenna Weissman Joselit shows how the length of a woman's skirt the shape of a man's hat and the height of a pair of heels enabled Americans of every faith color and class to feel part of the modern nation As moral arbiters warned that extravagant attire might undermine equality and gentlemen worried that wearing colored shirts reared them less manly the newly arrived and newly emancipated immigrants and African Americans wondered just how much jewelry was appropriate to their new status as citizens Engaging imaginative and original *A Perfect Fit* uncovers a time in American history when getting dressed was more about fitting in than standing out and vividly shows how clothes expressed the spirit of democracy and the promise of America *International Journal of Religious Education*, 1950

Gospel Messenger, 1954

From a Grain of Mustard Seed Cynthia Davis, 2009-01-01 From a Grain of Mustard Seed is the history of the first 125 years of one of the first Protestant churches in Albuquerque NM as told through the words of those who worshipped there *The Visual Memory of Protest* Ann Rigney, Thomas Smits, 2025-10-01 Social movements are not only remembered in personal experience but also through cultural carriers that shape how later movements see themselves and are seen by others The present collection zooms in on the role of photography in this memory activism nexus How do iconographic conventions shape images of protest Why do some images keep movements in the public eye while others are quickly forgotten What role do images play in linking different protests movements and generations of activists Have the affordances of digital media made it easier for activists to use images in their memory politics or has the digital production and massive online exchange of images made it harder to identify and remember a movement via a single powerful image Bringing together experts in visual culture cultural memory social movements and digital humanities this collection presents new empirical theoretical and methodological insights into the visual memory of protest
