Domestic Law Reforms in Post-Mao China Pitman B. Potter, Stanley Lubman, 2019-07-12 This volume explores various aspects of the law in transition in post Mao China Stanley Lubman's introduction places each of the substantive chapters in the larger context of Chinese legal studies Edward Epstein analyses the transplanting of European and Anglo American legal ideologies into China and the dilemmas this poses for the rule of law and legitimation in the reform period Murray Scot Tanner analyses reforms in the legislative process focusing particularly on the separation of the Communist Party from day to day legislative affairs and more pluralistic tendencies in the legislative process William C Jones by addressing the opinion of the Supreme People's Court regarding implementation of the general principles of civil law raises compelling questions about legal interpretation in China in the context of social reform James Feinerman analyses developments in Chinese contract law raising the question as to whether in China it can form a basis for predictability and certainty in commercial transactions that are integral to the economic reforms Judy Polumbaum studies developing efforts to enact a press law reflecting the uses to which law has been put in pursuit of the political issue of press reform Finally Pitman Potter analyses the emerging concept of judicial review in the context of the Administrative Litigation Law of the PRC an important aspect of political reform in China By addressing these issues the authors aim to reveal the various aspects of the developing autonomy that is embodied in China's legal reforms

Stand Up and be Counted, 2007 **China's Gambit** Ketian Zhang, 2023-12-14 Emerging from an award winning article in International Security China's Gambit examines when why and how China attempts to coerce states over perceived threats to its national security Since 1990 China has used coercion for territorial disputes and issues related to Taiwan and Tibet yet China is curiously selective in the timing target and tools of coercion This book offers a new and generalizable cost balancing theory to explain states coercion decisions It demonstrates that China does not coerce frequently and uses military coercion less when it becomes stronger resorting primarily to non militarized tools Leveraging rich empirical evidence including primary Chinese documents and interviews with Chinese and foreign officials this book explains how contemporary rising powers translate their power into influence and offers a new framework for explaining states coercion decisions in an era of economic interdependence particularly how contemporary global economic interdependence affects rising powers foreign security policies

value you might bring to the company you wish to work for For decades the perceived ideal candidate would have all of the above most of the above however a good candidate would have a four year college degree To a great extent an employer still would like someone with a four year college degree However I believe this is changing The need for those who work with their hands and those who are willing to work their way up through the various levels of an organization is becoming more and more desired by companies The time it will take you to earn your degree you could be making a nice living and will have accrued zero debt in the process Plus after working in an industry of your choice something you do have an interest in even a passion for you may be on equal footing with a newly hired college grad based on the four years you have been working in your industry of choice as you continue to work your way up through the company You will find the more value you bring to a company the more they will look to you to assume great responsibility Typically the more responsibility the greater the paycheck What makes this book timely is the fact as COVID 19 winds down we are seeing many labor shortages in many areas and industries Now is the absolute best time to go to an industry experiencing a labor shortage or enter one of the numerous industries researched in this book and get yourself the job you always wanted without the cost and time involved with getting a four year college education I have nothing against getting a degree and there are still many fields where they will always be mandatory however the trades service industries government railroads law enforcement plus many others will welcome you with open arms without the need for a four year degree I hope this book helps **Routledge Library**

Editions: The Labour Movement Various, 2021-07-28 This set of 44 volumes originally published between 1924 and 1995 amalgamates a wide breadth of research on the Labour Movement including labour union history the early stages and development of the Labour Party and studies on the working classes This collection of books from some of the leading scholars in the field provides a comprehensive overview of the subject how it has evolved over time and will be of particular interest to students of political history
