Advising and Tutoring for Student Success in Higher Education: International Perspectives Emily Alice McIntosh,Wendy Gates Troxel,David Grey,Oscar Van Den Wijngaard,Liz Thomas,2021-02-16 **People, Personal Data and the Built Environment** Holger Schnädelbach,David Kirk,2019-04-09 Personal data is increasingly important in our lives We use personal data to quantify our behaviour through health apps or for personal branding and we are also increasingly forced to part with our data to access services With the proliferation of embedded sensors the built environment is playing a key role in this developing use of data even though this remains relatively hidden Buildings are sites for the capture of personal data This data is used to adapt buildings to people s behaviour and increasingly organisations use this data to understand how buildings are occupied and how communities develop within them A whole host of technical practical social and ethical challenges emerge from this still developing area across interior architectural and urban design and many open questions remain This book makes a contribution to this on going discourse by bringing together a community of researchers interested in personal informatics and the design of interactive buildings and environments The book s aim is to foster critical

discussion about the future role of personal data in interactions with the built environment People Personal Data and the Built Environment is ideal for researchers and practitioners interested in Architecture Computer Science and Human Building Interaction

The Politics behind Aid and Cooperation Norms Rubens de Siqueira Duarte, 2019-08-27 This book examines the use of norms by British and Brazilian actors in aid cooperation in the 21st century unveiling the politics behind norm circulation Inspired by a constructivist approach this research analyses actors agency in asymmetric international and domestic environments in which different norms dissimilar identities and opposing interests coexist Regardless of the discourses and theories surrounding the differentiation between North South and South South aid cooperation British and Brazilian actors use norms to achieve their own goals at the domestic and international levels Processes of norm circulation in aid cooperation have a greater impact at the international level and within the domestic environment of donor partner countries than in promoting behavioral changes in recipient countries However the content of British and Brazilian norms is different given their historical position in the international architecture and domestic context The present study sought to unveil the politics behind how actors use aid cooperation norms in order to achieve their goals in three major instances 1 the international forums where actors debate the aid cooperation architecture 2 the domestic environment of donor partner countries and 3 the domestic level of recipient countries where international norms are diffused

What's Left Now? Andrew Hindmoor, 2018-02-02 Our sense of history shapes how we think about ourselves One of the distinguishing features of the left in Britain is that it holds to a remorselessly bleak and miserabilist view of our recent political history one in which Margaret Thatcher's election in 1979 marked the start of a still continuing fall from political grace made evident by the triumph of a free market get what you can neoliberal ideology dizzying levels of inequality social decay rampant individualism state authoritarianism and political corruption The left does not like what has happened to us and it does not like what we have become Andrew Hindmoor argues that this history is wrong and self harming It is wrong because Britain has in many respects become a more politically attractive and progressive country over the last few decades It is self harming because this bleak history undermines faith in politics Post Brexit post Grenfell and post the 2010 2015 and 2017 general elections things may not right now look that great But looked at over the longer haul Britain is a long way from being a posterchild for neoliberalism Left wing ideas and arguments have shaped and continue to shape our politics

Understanding Housing Policy Brian Lund, 2017-04-26 The 3rd edition of this bestselling textbook has been completely revised to address the range of socio economic factors that have influenced UK housing policy in the years since the previous edition was published The issues explored include the austerity agenda the impact of the Coalition government s housing policies the 2015 Conservative government s policy direction the evolving devolution agenda and the recent focus on housing supply The concluding chapter examines new policy ideas in the context of theoretical approaches to understanding housing policy laissez faire economics social reformism Marxist political economy behavioural perspectives and social constructionism Throughout the textbook substantive themes are illustrated by boxed examples and case studies The author focuses on principles and theory and their application in the process of constructing housing policy ensuring that the book will be a vital resource for undergraduate and postgraduate level students of housing and planning and related social policy modules

Greening Post-Industrial Cities Corina McKendry, 2017-09-22 City greening has been heralded for contributing to environmental governance and critiqued for exacerbating displacement and inequality Bringing these two disparate analyses into conversation this book offers a comparative understanding of how tensions between growth environmental protection and social equity are playing out in practice Examining Chicago USA Birmingham UK and Vancouver Canada McKendry argues that city greening efforts were closely connected to processes of post industrial branding in the neoliberal economy While this brought some benefits concerns about the unequal distribution of these benefits and greening s limited environmental impact challenged its legitimacy In response city leaders have moved toward initiatives that strive to better address environmental effectiveness and social equity while still spurring growth Through an analysis that highlights how different varieties of liberal environmentalism are manifested in each case this book illustrates that cities though constrained by inconsistent political will and broader political and economic contexts are making contributions to more effective socially just environmental governance Both critical and hopeful McKendry s work will interest scholars of city greening environmental governance and comparative urban politics

Social Mobility Lee Elliot Major, Stephen Machin, 2018-09-27 What are the effects of decreasing social mobility How does education help and hinder us in improving our life chances Why are so many of us stuck on the same social rung as our parents Apart from the USA Britain has the lowest social mobility in the Western world The lack of movement in who gets where in society particularly when people are stuck at the bottom and the top costs the nation dear both in terms of the unfulfilled talents of those left behind and an increasingly detached elite disinterested in improvements that benefit the rest of society This book analyses cutting edge research into how social mobility has changed in Britain over the years the shifting role of schools and universities in

creating a fairer future and the key to what makes some countries and regions so much richer in opportunities bringing a clearer understanding of what works and how we can better shape our future
