The adult, 1898 **The Big Bad Bitterkomix Handbook** Anton Kannemeyer, Conrad Botes, 2006 When Anton Kannemeyer and Conrad Botes founded their underground satirical comic magazine Bitterkomix in 1992 they put themselves at the forefront of the international expressionist comic movement Their assault on mainstream Afrikaner culture has continued to be challenging outrageous and controversial This book is an essential chronicle catalogue and visual cornucopia of the work of the Bitterkomix artists from Pub info **The Oxford Guide to Literature in English Translation** Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e g Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators *Villages and Market Towns in Hong Kong* Patrick H. Hase, 2024-11-18 Most histories of Hong Kong begin with the arrival of the British and only incidentally mention the pre colonial eras In this book Patrick Hase one of the leaders in the field provides an important addition to the history of Hong Kong and the Pearl River Delta region covering topics such as Chinese ethnicity commerce port towns and squatting It is a truly excellent work that will interest historians anthropologists and social scientists James L Watson Fairbank Professor of Chinese Society and Anthropology Emeritus Harvard University This book an historical and archaeological portrayal of Hong Kong market villages across the territory depicts how Hong Kong evolved not through chronicles of emperors and governors but through the ups and downs of different centres of rural life over the centuries It belongs beyond the bookshelves of historians and archaeologists anyone wandering the streets of Hong Kong neighbourhoods today wondering how did this place get to be

here will find this book well worth reading After reading this book I will never again look at Tsim Sha Tsui in quite the same way Gordon Mathews Research Professor and Emeritus Professor of Anthropology The Chinese University of Hong Kong How have places in Hong Kong evolved since well before the 19th century Villages and Market Towns in Hong Kong is a vital book showing us how its various suburban settlements came into being Such is a history of immense interest as well as unending fascination Since arriving at Hong Kong more than half a century ago Patrick Hase has been researching its local history with a particular focus on the market towns and villages in the New Territories Due to a lack of written documentation for the study of these communities much of his research was conducted through oral interviews with village elders in the 1980s and 1990s Hase sought their memories of the villages in their youth as well as their grandparents accounts of the communities prior to the age of high technology urbanization and modernization *EBOOK: Adult Literacy, Numeracy and Language: Policy, Practice and Research* Lyn Tett, Mary Hamilton, Yvonne Hillier, 2006-06-16 This book explores the social practice of literacy numeracy and language and its implications for teaching and learning adult basic skills Leading international experts argue that literacy numeracy and language are more than just a set of skills or techniques but are shaped by the social and cultural context within which they are taking place the meanings they have for users and the purposes they serve This shifts the focus from a narrow functional and externally imposed definition of literacy numeracy and language learning to more open and numerous definitions that focus on what people do with their knowledge understanding and skills in a range of contexts Adult Literacy Numeracy and Language shows how the social practice approach to learning and teaching can be used to develop more inclusive views of adult literacy numeracy and language Bringing together the views of researchers policy makers and practitioners it helps readers to develop an understanding of contemporary policy developments and encourages them to examine their own practice as adult basic education teachers in order to respond more effectively to the needs of their students This book is a valuable resource for practitioners researchers and students on courses in adult and continuing education particularly basic skills postgraduate students and researchers in the field of post compulsory education
