October 2009

1 About this study aid...

This document has been designed to make revision and self-marking easy for students studying AHS chemistry in Scotland.

The information in this publication has been reproduced to support SQA qualifications only on a non-commercial basis and can only be shared on that condition.

2 How to use...

The following two pages contain topics which cross-reference the course topics with SQA question numbers for the years 2014-18.

The first table is for multiple-choice questions, the second contains Section 2 questions. Each question number is hyperlinked to the SQA question and clicking it will take you there. The questions pages have further hyperlinks taking you back to the topic grid (top) or to the SQA marking instructions (bottom). Of course, you can always just treat it as a collection of question papers with marking instructions. This will be useful for most of course-based revision.

The SQA papers are included in this document to avoid the problems of broken hyperlinks to web pages that have disappeared. The document is self-contained and does not require an internet connection and so is usable anywhere. Mr Simons, High of Lewis Academy
