Alternative Reproductive Tactics Rui F. Oliveira,Michael Taborsky,H. Jane Brockmann,2008-03-13 The study of alternative reproductive tactics the behavioural strategies used by individuals to increase their reproductive success is an evolutionary puzzle and one of great interest to researchers For instance why do some males guard both nest and eggs while others sneak into nests while pairs are spawning and fertilise those eggs The field offers a special opportunity to study the evolution and functional causes of phenotypic variation which is a general problem in the field of evolutionary biology By integrating both mechanistic psychological and evolutionary behavioural ecology perspectives and by covering a great diversity of species Alternative Reproductive Tactics addresses this integrated topic of longstanding interest bringing together a multitude of otherwise scattered information in an accessible form that is ideal for graduate students and researchers

A Most Unconventional Courtship Louise Allen, 2002 Handbook of Marriage and the Family Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11 The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add It is therefore limited to two relevant but not intrinsically related points vis a vis research on marriage and the family in the interval since the first Handbook Christensen 1964 appeared namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook In the late 1930s Willard Waller noted Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it Everything that concerned the life of men and women and their children was shrouded from the light Today much of that has been changed Gone is the concealment of the way in which life begins gone the irrational sanctity of the home The aura of sentiment which once protected the family from discussion clings to it no more We want to learn as much about it as we can and to understand it as thoroughly as possible for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting We

are engaged in the process of reconstructing our family institutions through criticism and discussion 1938 pp 3 4

Ruskin Bond A Study of Human Emotions Dr. Sangeeta Paul Budhiraja, Literature challenges one not only to think about ethical conundrums but also makes one sensitive and compassionate When it blends with euphoria and nostalgia the integral parts of human mind it toughens and becomes sturdy Man loves to live in his past memories to be happy The experiences form a part of human personality and shape their behaviour pattern Nostalgia stores for us our memories which we relish lifelong Even the lamentable days of past become pleasant Though we might have ignored some not too pleasant incidents in our bygone days yet somewhat bitter experiences appear to be impressive and attractive It is aptly said that the panorama of mountains appear beautiful and splendid from a distance The bitterness of nearness is intolerable The more we grow in years the more our past recedes Distance from the life lived long ago makes it sweet and desirable Strain and stress of the present becomes frivolous when we slip and relapse into euphoric nostalgia The instincts of euphoria and nostalgia have been vividly handled by the legendary writers of all times They have given various dimensions and definitions to the readers to redeem these human aspects yet many more stones are still unturned These two instincts in the oeuvre of the legendary writer Ruskin Bond are the anchor points that suggest the scope of study I have chosen to put forward the very idea about how a man's body mind and soul blend with traces of his past memories and support the holistic growth

The Brontë Novels (Routledge Revivals) W. A. Craik, 2013-01-11. First published in 1968, this reissue of Dr Craik's critical appreciation of the completed novels of Charlotte, Emily, and Anne Brontë is seminal for the way in which it shifts emphasis away from the Brontë family biography towards a detailed critical analysis of the novels themselves. Separate chapters are given to each of the seven novels. The author's aims and techniques in each are assessed, and Dr Craik shows what light the books throw on each other, how they are related to the novels of the Brontës' predecessors, and how the Brontë novels compare with their great contemporaries in the nineteenth-century novel.
