Quiz Instructions

Please read the Anagene case (provided in the accompanying lecture accompanying quiz). There is no time limit for this quiz, but you are only allowed to complete it once. This quiz will be primarily a reflection of how well I encourage you to think carefully about the questions, and will benefit your learning of the material and your preparation for the in-classroom discussion.

Question 1

11 points

Many do you think the profit margin for Anagene's cartridges has been fluctuating? Is there attributable to the actual number of cartridges sold or the change in the number of the existing system that are using the cartridge the most?

The actual number of cartridges sold is the number that has changed. The company looked at the estimated number of cartridges produced and reduced the demand of the users per unit. This led to the estimated number of cartridges change. Finally, comparing the number of cartridges sold to the quantity of cartridges produced is the best.
