**The Cognition of Basic Musical Structures** David Temperley, 2004-08-20 In this book David Temperley addresses a fundamental question about music cognition how do we extract basic kinds of musical information such as meter phrase structure counterpoint pitch spelling harmony and key from music as we hear it Taking a computational approach Temperley develops models for generating these aspects of musical structure The models he proposes are based on preference rules which are criteria for evaluating a possible structural analysis of a piece of music A preference rule system evaluates many possible interpretations and chooses the one that best satisfies the rules After an introductory chapter Temperley presents preference rule systems for generating six basic kinds of musical structure meter phrase structure contrapuntal structure harmony and key as well as pitch spelling the labeling of pitch events with spellings such as A flat or G sharp He suggests that preference rule systems not only show how musical structures are inferred but also shed light on other aspects of music He substantiates this claim with discussions of musical ambiguity retrospective revision expectation and music outside the Western canon rock and traditional African music He proposes a framework for the description of musical styles based on preference rule systems and explores the relevance of preference rule systems to higher level aspects of music such as musical schemata narrative and drama and musical tension

[The Musical Language of Rock](#) David Temperley, 2018 In all of the books about rock music relatively few focus on the purely musical dimensions of the style dimensions of harmony and melody tonality and scale rhythm and meter phrase structure and form and emotional expression The Musical Language of Rock puts forth a new comprehensive theoretical framework for the study of rock music by addressing each of these aspects Eastman music theorist and cognition researcher David Temperley brings together a conventional music analytic approach with statistical corpus analysis to offer an innovative and insightful approach to the genre With examples from across a broadly defined rock idiom encompassing everything from the Beatles to Deep Purple Michael Jackson to Bonnie Raitt The Musical Language of Rock shows how rock musicians exploit musical parameters to achieve aesthetic and expressive goals for example the manipulation of expectation and surprise the communication of such oppositions as continuity closure and tension relaxation and the expression of emotional states A major innovation of the book is a three dimensional model of musical expression representing valence energy and tension which proves to be a powerful tool for characterizing songs and also for tracing expressive shifts within them The book includes many musical examples with sound clips available on the book's website The Musical Language of Rock presents new insights on the powerful musical mechanisms which have made rock a hallmark of our contemporary musical landscape

Researching Language in Schools and Communities is designed for those who intend to carry out and or study research in children s language development teaching English as a second language children s literature casual conversation social class and language variation classroom discourse reading processes teaching writing literacy and curriculum area learning critical literacies and related areas The contributors are among the foremost researchers in these fields In this book they introduce approaches to help investigate such areas in applied language research using systemic functional linguistics SFL A key purpose of this text is to facilitate the further engagement of language researchers with SFL perspectives encouraging more collaborative transdisciplinary work across different fields of study and theoretical approaches in projects of mutual concern The first two chapters outline the key aspects of SFL descriptions of the relationships between language and social context and the inter related descriptions of text structures and grammatical systems This provides sufficient background to enable those coming new to SFL to make productive critical use of the research reviewed studies described and advice on project design provided in the following chapters Nevertheless the book is an introductory resource and particular attention has been paid throughout to the extensive provision of clear references to more elaborated accounts of the important issues discussed AS Film Studies John Hill, Pamela Church Gibson, 2000 Spectatorship Roxanne Samer, William

Whittington, 2017-10-25 Media platforms continually evolve but the issues surrounding media representations of gender and sexuality have persisted across decades Spectator The University of Southern California Journal of Film and Television Criticism has published groundbreaking articles on gender and sexuality including some that have become canonical in film studies since the journal s founding in 1982 This anthology collects seventeen key articles that will enable readers to revisit

foundational concerns about gender in media and discover models of analysis that can be applied to the changing media world today *Spectatorship* begins with articles that consider issues of spectatorship in film and television content and audience reception noting how media studies has expanded as a field and demonstrating how theories of gender and sexuality have adapted to new media platforms Subsequent articles show how new theories emerged from that initial scholarship helping to develop the fields of fandom transmedia and queer theory The most recent work in this volume is particularly timely as the distinctions between media producers and media spectators grow more fluid and as the transformation of media structures and platforms prompts new understandings of gender sexuality and identification Connecting contemporary approaches to media with critical conversations of the past *Spectatorship* thus offers important points of historical and critical departure for discussion in both the classroom and the field
