Anatomy of the Spirit, and Why People Don't Heal and how They Can Caroline M. Myss,Caroline Myss, PH D,2004 From the foremost authority on energy medicine are two New York Times bestselling books gathered together in one volume In this collection Dr Myss provides the tools and encouragement to reach spiritual maturity and physical wholeness In ANATOMY OF THE SPIRIT Dr Myss shows how people can develop their latent powers of intuition to achieve spiritual growth In WHY PEOPLE DON T HEAL AND HOW THEY CAN Dr Myss examines the five myths about healing and explains how to attain spiritual and physical wellness **Summary of Caroline M. Myss's Anatomy Of The Spirit** Everest Media,2022-03-09T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The human energy field is a highly sensitive perceptual system that extends as far out as your outstretched arms and the full length of your body It is both an information center and a highly sensitive perceptual system The energy field carries emotional energy created by our internal and external experiences and it influences the physical tissue within our bodies 2 Positive images and the energy of positive experiences are also held in the energy field They are converted into matter by the brain and emotions are stored physically in our bodies and interact with our cells and tissues 3 The energy that is produced from our emotional and psychological states converts into biological matter through a highly complex process Each organ and system in the body is calibrated to absorb and process specific emotional and psychological energies 4 Intuitions are the

result of the body's attempt to promote its own health and they are usually only concerned with the part of the body that is becoming weakened or diseased. They transmit only the essential information to bring the conscious mind to an awareness of the imbalance or disease. *Awakening to the Spirit Within: Eight Paths* Pamela Smith Allen, PhD, 2003-09-12 The premise of *Awakening to the Spirit Within* is that all beings are connected by a spiritual energy which forms the essence of who they truly are. Eight paths which facilitate an awakening to this essence are explored: Native American Spirituality, Taoism, Hinduism, Buddhism, Kabbalah, Jesus and the Christ Within, Sufism, and The New Thought Movement. Practice exercises and references are also included. This book highlights some of the unique gifts which various spiritual traditions have to offer our world. In addition, it explores the mystical threads of connection which underlie them. Like the title suggests, it also gives ways of listening to guidance from within. The author includes messages from her own inner guidance in an effort to illustrate how this may occur. Her openness provides more warmth and intimacy than is usually found in such a book. In these uncertain times, there has been an upsurge of interest in books related to spirituality, religion, and mysticism. People are looking for ways to heal rather than destroy our planet. That is why this book and others like it are so timely and important in moving us closer to our shared goal of creating a more peaceful and harmonious world. *Yoga Journal*, 1996-10 For more than 30 years *Yoga Journal* has been helping readers achieve the balance and well-being they seek in their everyday lives. Getting thoughts create barriers that prohibit understanding. An affected person is unconsciously misled to believe that the only reality that exists is the one experienced by the five senses. As such, spirituality is reduced to a mechanical affair where the soul is bound and heaven is perceived as being a distant place that is unexperienceable until after death. The message contained in this book illuminates the idea: heaven is a choice and it can be experienced NOW. To claim this miracle for self, it is necessary to re-work the thoughts in the mind. Those that create what is not wanted must be let go, and as a mother bear protects her cub, one must guard the thoughts allowed into the mind. Taking personal responsibility is at the heart of this self-work. This personal revolution is a process. Any courageous enough to claim it can expect to create the following intimate social relationships: responsive political systems, schools that teach children Who They Are, and loving families. *The Divine Universe* Zara Borthwick, Nicholas Arnold, 2013-11-12 This book is a work of spirit communication that introduces themes of Love and Spirit relating with the Natural love of man and the Divine Love of God. The Padgett Messages, also a book of spirit communication, was received by James E. Padgett, 1914-1923. *The Divine Universe* extends the experience and vision of the Divine Love from the messages that James received. *The Divine Universe* introduces the workings of the soul, the spirit body, human evolution, of

the personality and how this evolution transitions from a human life into spirit life The vision of harmony Immortality and living Divine Love is conveyed by the spirits with illumination and a sense of wonder that introduces the living potential of love for us all *The Little Book of the Spirit* Elaine Partnow,2011-04-12 In times of trouble and even when things are going well we can all benefit from an encouraging word or hopeful advice Optimistic words of wisdom from people who have themselves risen to positions of prominence are often all it takes to remind us of life s simple joys and the possibility of triumphing over its challenges In *The Little Book of the Spirit* acclaimed author Elaine Bernstein Partnow presents hundreds of uplifting observations designed to inspire motivate and comfort readers Drawn from the insights of humorists politicians Olympians Nobel Prize winners and other notables this compilation culls the thoughts of an international array of incredible men and women noted for their positive contributions to the world Featuring wise and witty sayings from notable men and women *The Little Book of the Spirit* offers an uplifting and rejuvenating reading experience that is sometimes humorous sometimes serious and always provocative *The Spiritual Foundation of Morality* Rudolf Steiner,1995 Moral teaching and moral preaching cannot establish morality It is only by delving into the hidden secrets of life that we can advance not just to moral doctrines but to the moral sources of life true moral impulses At different times humanity has manifested moral life in different ways To understand these differences the evolution of consciousness must also be taken into account Originally morality was a part of human nature for in their essence human beings are good But through evolution there have come errors deviations times of falling away In this small much loved cycle of three lectures Rudolf Steiner indicates the sources for the recovery of a living morality for our time Rudolf Steiner shows the transformation of the virtues through the evolution of consciousness and above all through the incarnation of the Christ in the Mystery of Golgotha Since then morality works to build up Christ s being Synopses Why morality needs to be studied Preaching morality v founding morality examples of ancient India devotion to wisdom and ancient Europe courage Leprosy in the Middle Ages The biography of Francis of Assisi the transformation of courage into love The reality of moral forces The caste system differentiation as to a law of evolution The betrayal of the Atlantean Mysteries the consequences for the European population Racial evolution v soul evolution The demons of leprosy overcome by the Christ impulse in Francis of Assisi Francis s prior incarnation the mysteries at Colchis and the Buddha Francis s faith in the original goodness of humanity Plato s four virtues The nature of evil and freedom the teaching of the mean Interest as a precondition for understanding and moral conduct Spiritual Science as divine wisdom stimulates interest During the third post Atlantean cultural epoch interest was regulated by the instinctive virtue of wisdom today interest must be regulated by conscious truthfulness The lack of truthfulness in modern times theosophy as an educator of truthfulness Truthfulness as the virtue of the sentient soul Courage as the instinctive virtue of the mind soul in the fourth epoch today in the fifth epoch it must become love based on understanding This is promoted by a theosophical comprehension of the Christ Temperance as the virtue of the consciousness soul is still instinctive in the fifth epoch it will be
