Bauer, Robyn Fivush, 2013-09-16 This all embracing Handbook on the Development of Children s Memory represents the first place in which critical topics in memory development are covered from multiple perspectives from infancy through adolescence Forty four chapters are written by experienced researchers who have influenced the field Edited by two of the world s leading experts on the development of

memory Discusses the importance of a developmental perspective on the study of memory The first ever handbook to bring together the world's leading academics in one reference guide Each section has an introduction written by one of the Editors who have also written an overall introduction that places the work in historical and contemporary contexts in cognitive and developmental psychology 2 Volumes **Choreomania** Kélina Gotman, 2018 When political protest is read as epidemic madness religious ecstasy as nervous disease and angular dance moves as dark and uncouth the disorder being described is choreomania At once a catchall term to denote spontaneous gestures and the unruly movements of crowds choreomania emerged in the nineteenth century at a time of heightened class conflict nationalist policy and colonial rule In this book author Kélina Gotman examines these choreographies of unrest rethinking the modern formation of the choreomania concept as it moved across scientific and social scientific disciplines Reading archives describing dramatic misformations of bodies and body politics she shows how prejudices against expressivity unravel in turn revealing widespread anxieties about demonstrative agitation This history of the fitful body complements stories of nineteenth century discipline and regimentation As she notes constraints on movement imply constraints on political power and agency In each chapter Gotman confronts the many ways choreomania works as an extension of discourses shaping colonialist orientalism which alternately depict riotous bodies as dangerously infected others and as curious bacchanalian remains Through her research Gotman also shows how beneath the radar of this colonial discourse men and women gathered together to repossess on their terms the gestures of social revolt Graphic Texts Eva Teubal, Ainat Guberman, 2014-11-04 The message of the book is straightforward and easy to apply it derives from the interweaving of long years of field work with a solid theoretical background The practice advocated presents children with the opportunity to confront contents and situations which are only too often considered inaccessible for them The abundant examples presented show that when provided with an adequate toolkit composed of graphic texts children are inherently motivated by the challenges surrounding them and can make the most out of them as valuable learning opportunities Drawings icons photographs maps and calendars are incorporated into the tool kit while they are being used in circumstances in which they are required children appropriate them while exposed to their use and experience their affordances Children realize how the graphic texts empower their performance The fact that this toolkit is multimodal involves several sensory modalities implies that those for whom language is not the most readily available means of communication and processing are not discriminated against on the one hand it facilitates conceptualization and its expression by alternative means and on the other it supports both the comprehension and production of verbal language Performing Queer Latinidad Ramon H. Rivera-Servera, 2012-10-26 The place of performance in unifying an urban LGBT population of diverse Latin American descent **Cultural Studies Review** Chris Healy and Stephen Muecke (eds), 2008 The October 2008 Cultural Studies Review is a special issue focusing on cultures of panic particularly recent examples of moral panic arising from issues of race gender and sexuality The diverse essays deal

with men of Middle Eastern appearance the trial of Private Kovko the aftermath of Hurricane Katrina the use of Ritalin concerns around children and sexuality in Australia and arts funding in the United States during the culture wars The moral panic has centrally to do with the behaviour of crowds particularly the virtual crowds created by the mass media It s a mechanism of expulsion and thus at the same time of group solidarity It s also a particularly powerful genre of the tabloid media in its identification and shaming of deviant social groups it rigidly defines and reinforces moral norms and is complicit with political strategies of consolidation and othering which create and depend on a sense of horror at refugees who wilfully throw their children overboard or push in to the front of the queue at paedophiles grooming children over the internet at drug crazed criminals and bingeing teenagers The challenge is to move beyond the realisation that moral panics are not rationally constructed to an analysis of the passional bases of the social order and to an understanding of how our politics might deal with this without itself falling into the contagion of panic The diverse collection of essays gathered together in this edition takes up that challenge
