engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping, webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content communities and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.

Strickland in the continuing exploration of how real teachers incorporate differentiation principles and strategies throughout an entire instructional unit. Inside you'll find annotated lesson plans for differentiated units in English, mathematics, history, science, art, and world languages. Samples of differentiated product assignments, learning contracts, rubrics, and homework handouts. An overview of the non-negotiables in differentiated classrooms and guidelines for using the book as a learning tool. An extended glossary and recommended readings for further exploration of key ideas and strategies. Each unit highlights underlying standards, delineates learning goals, and takes you step by step through the instructional process. Unit developers provide running commentary on their use of flexible grouping and pacing, tiered assignments and assessments, and numerous other strategies. The models and insight presented will inform your own differentiation efforts and help you meet the challenge of mixed-ability classrooms with academically responsive curriculum appropriate for all learners.

The NeighborHOOD Individual Protective Guide Kevin Andre White, 2007-11-09 This great book comes at a time when society is most vulnerable when decent policemen hired to protect society are too few and some paid protectors have become participants in criminal activities themselves. Our personal safety is paramount. No longer can we walk the streets in peace, expecting the same behavior in return. The average person must be aware of how prevalent crime is in society today. Therefore, this book will provide in checklist form actions citizens can take to protect themselves. To be direct, failure to take appropriate protective actions may lead to YOU or someone you love becoming the next victim citizens hear about on the six o'clock news or view some years later at a Holocaust museum.
