Adler World Civilizations 5th Edition:

Ancient World: Lesson Overviews, 5th ed. , Voyage Without a Harbor David D. Peck, 2014-02-05 With the extensive amount of information available online today it is often difficult to determine the validity of facts presented and even more challenging to put them all into perspective In Voyage without a Harbor author David D Peck seeks to provide both the validity and perspective from a historical standpoint A professor of history at the college level for more than twenty years Peck presents an accessible narrative overview of Western civilization from the Stone Age to the end of the Cold War in the late twentieth century Voyage without a Harbor focuses primarily on providing fundamental guidance information and insight on how civilization developed but also occasionally delves into deeper factual presentations combined with some examples drawn from the humanities Geared toward high school seniors and college freshmen this study offers a concise look into the history of Western civilization with lists of suggested resources and reading for those seeking more in depth discussion highly accessible and eminently readable John D Young PhD Flagler College well balanced with fascinating tidbits scattered throughout Ryan Patrick Crisp PhD BYU Idaho **World Civilizations** Philip J. Adler, 2003 **WORLD CIVILIZATIONS** offers students a comprehensive and balanced overview of the world's major civilizations spanning from the ancient world to modern times With more than half of the text devoted to non Western civilizations this Third Edition provides increased attention to modern day Islam pre colonial Africa the role of women throughout history and the global effects of World War II on the various civilizations Throughout Philip Adler describes history as the story of how individuals have tried with varying degrees of success to meet their physical emotional and intellectual needs and desires

Forthcoming Books Rose Arny, 2001 *Balkan Idols* Vjekoslav Perica, 2002-07-11 Reporting from the heartland of Yugoslavia in the 1970s Washington Post correspondent Dusko Doder described a landscape of Gothic spires Islamic mosques and Byzantine domes A quarter century later this landscape lay in ruins In addition to claiming tens of thousands of lives the former Yugoslavia's four wars ravaged over a thousand religious buildings many purposefully destroyed by Serbs Albanians and Croats alike providing an apt architectural metaphor for the region's recent history Rarely has the human impulse toward monocausality the need for a single explanation been in greater evidence than in Western attempts to make sense of the country's bloody dissolution From Robert Kaplan's controversial *Balkan Ghosts* which identified entrenched ethnic hatreds as the driving force behind Yugoslavia's demise to NATO's dogged pursuit and arrest of Slobodan Milosevic the quest for easy answers has frequently served to obscure the Balkans complex history Perhaps most surprisingly no book has focused explicitly on the role religion has played in the conflicts that continue to torment southeastern Europe Based on a wide range of South Slav sources and previously unpublished often confidential documents from communist state archives as well as on the author's own on the ground experience *Balkan Idols* explores the political role and influence of Serbian Orthodox Croatian Catholic and Yugoslav Muslim religious organizations over the course of the last century Vjekoslav Perica

emphatically rejects the notion that a clash of civilizations has played a central role in fomenting aggression He finds no compelling evidence of an upsurge in religious fervor among the general population Rather he concludes the primary religious players in the conflicts have been activist clergy This activism Perica argues allowed the clergy to assume political power without the accountability faced by democratically elected officials What emerges from Perica's account is a deeply nuanced understanding of the history and troubled future of one of Europe's most volatile regions Teaching History, 2000
