range of attempts from the oldest to among the most recent efforts to describe this process and include the work of Erik Erikson Peter Blos Lawrence Kohlberg Jane Loevinger and Robert Kegan Although focussing on each theorist in turn this volume also goes on to compare and integrate the varied theoretical models and research findings and sets out some of the practical implications for social response to adolescents Different social and cultural conditions and their effect on the identity formation process are also covered as are contemporary contextual narrative and postmodern approaches to understanding and researching identity issues The book is ideal reading for students of adolescence identity and developmental psychology
