rely on language sciences exclusively but also on theology ethnology sociology psychology philosophy anthropology geography history and other connected fields as well as culture in general Despite the contributors cultural diversity 29 researchers from 16 countries England Finland Germany Hungary Italy Japan Jordan Kenya Nigeria Poland Romania Russia South Africa Spain U S A and Zimbabwe on four continents and their adherence to different religions and faiths the studies in Onomastics between Sacred and Profane share a common goal that consist of the analysis of names that reveal a person s identity and behavior or the existence configuration and symbolic nature of a place or an object One can state that names are tightly connected to the surrounding reality be it profane or religious in every geographical area and every historical period and this phenomenon can still be observed today The particularity of this book lies in the multicultural and multidisciplinary approach in theory and praxis
