apparent perhaps are the many attempts at bringing former adversaries together Reconciliation in Global Context argues for the merit of reconciliation and for the need of global conversations around this topic The contributing scholars and scholar practitioners who hail from the United States South Africa Ireland Israel Zimbabwe Germany Palestine Belgium Bosnia and Herzegovina Serbia Switzerland and the Netherlands describe and analyze examples of reconciliatory practices in different national and political environments Drawing on direct experiences with reconciliation efforts from facilitating psychosocial intergroup workshops to critically evaluating official policies they also reflect on the personal motivations that guide them in this field of engagement Arranged along an arc that spans from cases describing and interpreting actual processes with groups in conflict to cases in which the conceptual merits and constraints of reconciliation are brought to the fore the chapters ask hard questions but also argue for a relational approach to reconciliatory practices For in the end what is important is to embrace a spirit of reconciliation that avoids self interested action and instead advances other directed care This book is freely available in an open access edition thanks to Knowledge Unlatched an initiative that provides libraries and institutions with a centralized platform to support OA collections and from leading publishing houses and OA initiatives Learn more at the Knowledge Unlatched website at <https://www.knowledgeunlatched.org> and access the book online at the SUNY Open Access Repository at <http://hdl.handle.net/20.500.12648/7139>
