Anarchism Ruth Kinna,2005 What do anarchists stand for In this clear and penetrating study Ruth Kinna goes directly to the heart of this controversial ideology explaining the influences that have shaped anarchism and the different tactics and strategies that have been used by anarchists throughout history to achieve their ends Drawing on sources from the classic accounts of Proudhon and Bakunin to the work of modern anarchist thinkers Kinna covers themes both historical and acutely contemporary including Could anarchy ever really be a viable alternative to the state Can anarchist ideals ever be consistent with the justification of violence How has anarchism influenced the anti globalization movement The Routledge Guidebook to Thoreau's Civil Disobedience Bob Pepperman Taylor,2014-12-17 Since its publication in 1849 Henry David Thoreau s Civil Disobedience has influenced protestors activists and political thinkers all over the world Including the full text of Thoreau s essay The Routledge Guidebook to Thoreau s Civil Disobedience explores the context of his writing analyses different interpretations of the text and considers how posthumous edits to Civil Disobedience have altered its intended meaning It introduces the reader to the context of Thoreau s work and the background to his writing the significance of the references and allusions the contemporary reception of Thoreau s essay the ongoing relevance of the work and a discussion of different perspectives on the work Providing a detailed analysis which closely examines Thoreau s original work this is an essential introduction for students of politics philosophy and history and all those seeking a full appreciation of this classic work *Anarchism* Ernst Viktor Zenker,1898 **Anarchist's Guide to Historic House Museums** Franklin D Vagnone,Deborah E Ryan,2016-07-01 In these days of an aging traditional audience shrinking attendance tightened budgets increased competition and exponential growth in new types of communication methods America s house museums need to take bold steps and expand their overall purpose beyond those of the traditional museum They need not only to engage the communities surrounding them but also to collaborate with visitors on the type and quality of experience they provide This book is a groundbreaking manifesto that calls for the establishment of a more inclusive visitor centered paradigm based on the shared experience of human habitation It draws inspiration from film theater public art and urban design to transform historic house museums while providing a how to guide for making historic house museums sustainable through five primary themes communicating with the surrounding community engaging the community re imagining the visitor experience celebrating the detritus of human habitation and acknowledging the illusion of the shelter s authenticity Anarchist s Guide to Historic House Museums offers a wry but informed rule breaking perspective from authors with years of experience and gives numerous vivid examples of both good and not so good practices from house museums in the U S The Palgrave Handbook of Anarchism Carl Levy,Matthew S. The Anarchists' Guide to the Bay Area Buckner Thompson,2022-12-03 Susie Os and the independent publishing house AL Press are proud to present their first book in a series on Direct Democracy Political Activism and Personal Freedom The neo conservative gun toting minority has high jacked the Republican Party the United States Supreme Court as well as the language and terminology of freedom but AL Press is here to help YOU fight back While violent white supremacists and hard core evangelicals with the assistance of talking heads and masters of propaganda like Donald Trump and Tucker Carlson have subverted the very basic principles of the United States to strip average hard working Americans of their fundamental rights the silent majority of freedom loving and proud Americans can no longer stay SILENT But how do you protest inside a increasingly oppressive militaristic and violent society How do you stay safe when your very life may be at the whim of a heavily armed racist police officer recruited into a position of authority by his white supremacist overlords and protected from prosecution by an ever more corrupt judicial system RESIST It is the only ethical and moral option and this is the book the government doesn't want you to have AL Press Independent Publishing at it's best Susie Os and Bonny Freedom are the editors of the first in a series of books on political activism and personal freedom This book along with several others at AL Press follow a long tradition of promoting literary freedom as protected by the United States constitution However due to recent challenges and post 9 11 censorship the authors and AL Publishing are currently writing under pseudonyms for their own protection

The Routledge Handbook of Anarchy and Anarchist Thought Gary Chartier,Chad Van Schoelandt,2020-12-30 This Handbook offers an authoritative up to date introduction to the rich scholarly conversation about anarchy about the possibility dynamics and appeal of social order without the state Drawing on resources from philosophy economics law history politics and religious studies it is designed to deepen understanding of anarchy and the development of anarchist ideas at a time when those ideas have attracted increasing attention The popular identification of anarchy with chaos makes sophisticated interpretations which recognize anarchy as a kind of social order rather than an

alternative to it especially interesting Strong centralized governments have struggled to quell popular frustration even as doubts have continued to percolate about their legitimacy and long term financial stability Since the emergence of the modern state concerns like these have driven scholars to wonder whether societies could flourish while abandoning monopolistic governance entirely Standard treatments of political philosophy frequently assume the justifiability and desirability of states focusing on such questions as What is the best kind of state and What laws and policies should states adopt without considering whether it is just or prudent for states to do anything at all This Handbook encourages engagement with a provocative alternative that casts more conventional views in stark relief Its 30 chapters written specifically for this volume by an international team of leading scholars are organized into four main parts I Concept and Significance II Figures and Traditions III Legitimacy and Order IV Critique and Alternatives In addition a comprehensive index makes the volume easy to navigate and an annotated bibliography points readers to the most promising avenues of future research
