Multisensory CALL for Under-Resourced Universities and Schools in Indonesia Lala Bumela Sudimantara, Luqman Baehaqi, Ania Lian, Andrew-Peter Lian, 2025-06-17 This book showcases the successful integration of multisensory learning and computer-assisted language learning CALL in under-resourced schools and universities in Indonesia aimed at addressing the learning crisis as indicated by the sharp decline of English Proficiency Index and PISA in the last two decades. Multisensory learning provides a well-rounded learning experience that helps students to accelerate their learning. The authors describe how brain-informed learning tools such as the Verbotonal Approach, Reading for Emotions, and Aesthetics can facilitate rich and engaging learning practices and argue that adopting these practices can allow students to take a more active role in their learning, resulting in improved outcomes. This book will be of interest to readers in the Indonesian and other similar contexts, particularly those with an interest in language education, applied linguistics, CALL, and TESOL.

Poets on Inventing Jason Wirtz, 2008 Navigating the Academic Career Victor N. Shaw, 2013-03-01 There is an urgent need to provide academic professionals with individual institutional and contextual accounts of their careers and career-making endeavors. An individual account makes academicians think about what they do and how they might do it better. An institutional account makes academicians reflect upon the organizational environment in which they function and ponder what they might do to improve it. A contextual account connects academicians and their work to knowledge, the knowledge enterprise, and the larger social structure so that they know and understand the impact they and their career-making efforts have on themselves, academia, and general social processes. This book examines academic careers and career-making activities with respect to their main aspects: milestones and general pathways. In content, it divides into four identifiable parts. Part I focuses on professional preparation. It examines education, degree, reeducation, job search, and job change. Part II centers on organizational employment. It investigates position, research, teaching, service, and tenure. Part III revolves around professional networking. It looks into publication, conference, presentation, application for grants and awards, and membership in academic associations. Part IV rises above specific issues. It explores general career pathways and overall scholarly identity.
