Comprehensive Membrane Science and Engineering Enrico Drioli, Lidietta Giorno, 2010-07-09 Comprehensive Membrane Science and Engineering Four Volume Set covers all aspects of membrane science and technology from basic phenomena to the most advanced applications and future perspectives Modern membrane engineering is critical to the development of process intensification strategies and to the stimulation of industrial growth The work presents researchers

and industrial managers with an indispensable tool toward achieving these aims Covers membrane science theory and economics as well as applications ranging from chemical purification and natural gas enrichment to potable water Includes contributions and case studies from internationally recognized experts and from up and coming researchers working in this multi billion dollar field Takes a unique multidisciplinary approach that stimulates research in hybrid technologies for current and future life saving applications artificial organs drug delivery

My Life in the Golden Age of Chemistry F. Albert Cotton, 2014-08-19 A giant in the field and at times a polarizing figure F Albert Cotton s contributions to inorganic chemistry and the area of transition metals are substantial and undeniable In his own words My Life in the Golden Age of Chemistry More Fun than Fun describes the late chemist s early life and college years in Philadelphia his graduate training and research contributions at Harvard with Geoffrey Wilkinson and his academic career from becoming the youngest ever full professor at MIT aged 31 to his extensive time at Texas A M Professor Cotton s autobiography offers his unique perspective on the advances he and his contemporaries achieved through one of the most prolific times in modern inorganic chemistry in research on the then emerging field of organometallic chemistry metallocenes multiple bonding between transition metal atoms NMR and ESR spectroscopy hapticity and more Working during a time of generous government funding of science and strong sponsorship for good research Professor Cotton s experience and observations provide insight into this prolific and exciting period of chemistry Offers personal and often wry perspective from this prominent chemist and recipient of some of science s highest honors the U S National Medal of Science 1982 the Priestley Medal the American Chemical Society s highest recognition 1998 membership in the U S National Academy of Sciences and corresponding international bodies and 29 honorary doctorates Details the background behind the development and emergence of groundbreaking research in organometallic chemistry and transition metals Provides beautifully written and engaging insight into a Golden Age of Chemistry and the work of historically renowned chemists
