Amorangi and Millie's Trip Through Time PAGES 109-110 CHAPTERS 23-24

DISCUSSION QUESTIONS

- Little changed the future by changing the past. If you had the chance to change the past, would you do so? Why or why not? If you would, what would you choose to change? What would the effect be?
- If you could be friends with any of the characters from this novel, who would you choose? Why? What would you talk about?

Amorangi and Millie's Trip Through Time PAGES 109 - 110 CHAPTERS 6-12

DISCUSSION QUESTIONS

- If you were Amorangi and Millie, how would you have reacted when the future was about to be changed? What would you have said? How would you have felt?
- Describe how the future was different to the present. What were the things that were different? What were the things that were the same?

Amorangi and Millie's Trip Through Time PAGES 109-110 CHAPTERS 1-5

DISCUSSION QUESTIONS

- What do you think the old woman who was with Amorangi and Millie is? What clues did you pick up on? Why do you think she refused to tell them?
- Given the description of what the town, shops and people look like in Rang's future time, what does it tell you about the future? What clues did you pick up on? What clues helped you?
- What questions do you have about the future? What are you wondering or curious about? Discuss your ideas with a partner.
- Describe your own and your friend's future. What would be fun or exciting? What would be challenging and difficult?

DISCUSSION QUESTIONS

- What did Amorangi enjoy about being stuck at home for the Covid-19 lockdown? Did you do any similar activities to Amorangi? Discuss your ideas with a small group.
- Rang told Amorangi that he sometimes got 'the cure' at school for talking too loudly or speaking to his friend. How does this make you feel? Why or how is this different to the future?
- What differences have you noticed so far in the future? In terms of what? How? Why do you think this is different?
- Amorangi told Millie that she was going to be a doctor. What do you think she would be like? What would she be like?

S. History

Thematically Rosalie Metro,2023 The second edition of this best selling book offers the tools teachers need to get started with an innovative approach to teaching history one that develops literacy and higher order thinking skills connects the past to students lives today and meets state and national standards The author provides an introductory unit to build a trustful classroom climate over 70 primary sources including a dozen new ones organized into six thematic units each structured around an essential question from U S history and a final unit focusing on periodization and chronology As students analyze carefully excerpted documents speeches by presidents and protesters Supreme Court cases political cartoons they build an understanding of how diverse historical figures have approached key issues At the same time students learn to participate in civic debates and develop their own views on what it means to be a 21st century American Each unit connects to current events and dynamic classroom activities make history come alive In addition to the documents themselves this teaching manual provides strategies to assess student learning mini lectures designed to introduce documents activities to help students process display and integrate their learning guidance to help teachers create their own units and more

Summary of Stephen Hawking's Brief Answers to the Big Questions by Swift Reads Swift Reads,2019-06-28 Brief Answers to the Big Questions 2018 presents the thoughts of theoretical physicist and cosmologist Stephen Hawking on 10 major scientific and philosophical debates including whether a deity exists whether intelligent life exists in space and

whether humans should seek out a new home outside of Earth Hawking who spent his life studying how black holes could help scientists better understand the universe s beginnings began compiling these answers in the year before his death from a personal archive of speeches essays and other musings he had delivered during his time as a scientist and public figure Purchase this in depth summary to learn more **An Elm Creek Quilts Sampler** Jennifer Chiaverini,2003-10-21 The first three novels in the popular series The Quilter s apprentice Round robin and the cross country quilters Writing from Within Level 1 Teacher's Manual Arlen Gargagliano,Curtis Kelly,2011-10-31 Writing from Within Second edition prepares students for paragraph and composition writing while making the process enjoyable The Teacher s Manual contains teaching notes additional activities and a complete answer key **California: A Trip Across the Plains in the Spring of 1850** James Abbey,2014-11-20 I have counted in the last ten miles three hundred sixty two wagons which in the States cost about 120 each The cause of so many wagons being abandoned is to endeavor to save the animals and reach the end of the journey as soon as possible by packing through the loss of personal goods is a matter of small importance comparatively Between 1846 and 1869 more than 400 000 settlers took the perilous journey across the wide and wild spaces of the Western United States to settle in the coastal territories James Abbey was just one of them and he kept a journal of the trip The sheer determination foolishness or a combination of both that motivated pioneers to uproot their lives and families and risk it all is exemplified in Abbey s statement above Once on the trail there was often no going back and great sacrifices were exacted to reach the destination This long forgotten out of print book is available for e readers for the first time Journey back in time with Abbey and find out just how hard it was how much it cost in hard earned dollars and what the rewards were He published this record in his words Being a daily record of incidents of the trip over the plains the desert and the mountains sketches of the country distances from camp to camp etc And containing valuable information To emigrants As to where they will find wood water and grass at almost every step of the journey Be sure to LOOK INSIDE or download a sample

Illusion Frank Peretti,2012-10-23 A grieving husband encounters a teen identical to his dead wife in face name and magical skills The Big Questions Of Science Antonino Del Popolo,2024-10-29 Of all the species that live on this planet as far as we know man is the only one capable of awareness observing the sky understanding its beauty and asking questions about the meaning of life and that of death on the beginning and the end both about the Universe and man himself The questions range in all directions why is there something instead of nothing Who is the architect of reality and why does it appear to us as it does rather than in some other way What s the point of all this Where does life originate and what are the origins of the Universe that encompasses it This book aims to introduce and address the questions that are often asked and answer with the knowledge that science provides us Where does all the matter we are made of come from and what constitutes the Universe Is it true that there is matter and energy whose existence can be intuited only indirectly as the existence of the wind is deduced from leaves motion Einstein was right in his revolutionary description of reality on nature of

space and time inextricable units in their apparent dichotomy Does each observer truly observe a different time from another observer Can we move back and forth in the time How space and time are modified by astronomical objects such as black holes and what is the nature of the latter Will time and the Universe end and how did they originate The Universe is incredibly vast housing hundreds of billions of galaxies within the observable Universe alone Beyond what we can observe there may exist an unimaginably vast expanse that extends infinitely and beyond our imagination Our Universe enormous as it may be is not the only one That s all predicted by certain cosmological and physical theories Is life unique to Earth or does the Universe harbor other forms of life that remain undiscovered to us
