Promoting Reflection on Language Learning Neil Curry, Phoebe Lyon, Jo Mynard, 2023-09-12. This book brings together a wide range of studies, practical applications, and reflective accounts written by academics working at a university in Japan to present a cohesive overview of their collaborative efforts to promote learner reflection within their institution. The book contributes to a shift in language education towards promoting learner responsibility and ownership of their learning through developing a deeper sense of awareness of and motivation for the learning process. It makes a convincing case for showing that not only is promoting reflection possible but it can also be effectively integrated into language learning activities with significant benefits to the learners. The chapters are highly practical for researchers and practitioners, with the research chapters containing instruments which make them ideal for replication studies. The text includes a wealth of practical tools and activities for practitioners who will be able to experience first hand how to facilitate student success and increase satisfaction.

The Questions of Jesus in John Douglas Charles Estes, 2012-10-19. Why do the New Testament gospels depict a Jesus who asks questions almost as often as he gives answers? In *The Questions of Jesus*, John Douglas Estes crafts a highly interdisciplinary theory of question asking based on insights from ancient rhetoric and modern erotetics, the study of interrogatives, in order to investigate the logical and rhetorical purposes of Jesus' questions in the Gospel of John. While a scholarly discussion about Jesus cares more for what he says and not what he asks, Estes argues a better understanding of the rhetorical and dialectical roles of questions in ancient narratives sheds a more accurate light on both John's narrative art and Jesus' message in the Fourth Gospel.

Handbook of Research on Writing Instruction: Practices for Equitable and Effective Teaching Hodges, Tracey S., 2022-05-27. Writing is a critical component for teaching children about advocacy and empowering student voice as well as an essential tool for learning in many disciplines. Yet writing instruction in schools often focuses on traditional methods such as the composition of five-paragraph essays or the adherence to proper grammatical conventions. While these are two components of writing instruction and preparation in education, they only provide a small glimpse into the depth and breadth of writing. As such, writing instruction is increasingly complex and requires multiple perspectives and levels of skill among teachers. *The Handbook of Research on Writing Instruction: Practices for Equitable and Effective Teaching* serves as a comprehensive reference of issues related to writing instruction and leading research about perspectives, methods, and approaches for equitable and effective writing instruction. It includes practices beyond K-12, including best writing practices at the college level as well as the development of future teachers. Providing unique coverage on culturally relevant writing, socio and racial linguistic justice, and urgent writing pedagogies, this major reference work is an indispensable resource for administrators and educators of both K-12 and higher education, pre-service teachers, teacher educators, libraries, government officials, researchers, and academicians.
