On: 100 Most Popular Tony Award Winners Wikipedia contributors, **Television's Streaming Wars** Arienne Ferchaud,Jennifer M. Proffitt,2023-11-03 This volume addresses contemporary debates and trends regarding the production and distribution content and audience engagement with the television streaming industry The book interrogates the economics and structure of the industry questions the types and diversity of content perpetuated on streaming services and addresses how audiences engage with content from US and global perspectives and within various research paradigms Chapters address the television streaming wars including the debates and trends in terms of its production and competition diversity and growth of programming and audience consumption focusing on multiple platforms content and users This timely and creative volume will interest students and scholars working in television studies media industry studies popular culture studies audience studies media psychology critical cultural studies and media economics *The Korean Wave in a Post-Pandemic World* Geon-Cheol Shin,Mark D. Whitaker,2023-11-02 This book presents an analysis of how the economic Korean Miracle spread into the cultural Korean Wave Hallyu First only in Asian countries and then around the world the rising popularity of the Korean Wave continued within the pandemic despite or even because of policies of digital lockdowns Partially this has been by design as Korea for decades has had a very strong fast development drive in telecommunications and that aided the growth of its cultural wave Partially however this became exclusively by default how the Korean Wave had to spread increasingly in a digital manner after 2020 globally in response to many countries rules regarding the COVID 19 pandemic in their attempts to enforce a decline in face to face content consumption In retrospect this has meant only more digital growth and innovation for the Korean Wave in past years compared to other cultures entertainment complexes that suffered more Korea s earlier digital readiness combined with later lockdownconditions and pushed the Korean Wave further ahead Despite the ending of COVID 19 lockdowns in many countries a greater digital aftermath will continue in the cultural industry and in the economy in general This is due to changes created in cultural preferences in organizational investments and in communication technologies due to those lockdowns Thus the authors examine how the Korean Wave coped actively with a pronounced digital shift by default in all aspects of media including production distribution and consumption In turn they examine how the greater digital shift in the world s culture and economy influenced the Korean Wave s entertainment

performances TV dramas and cosmetics among other areas The authors analyze general trends in the Korean Wave s economics culture and technology along with specific strong cases of the K pop boy group BTS the cosmetics manufacturer Cosmax and the television series Squid Game Since the Korean Wave continues to grow in popularity within a more exclusive digital socialization future implications of such a competitive digital world economy and multi polar digital world culture are discussed for all countries as well
