In Search of a Better World Karl Popper,2012-12-06 I want to begin by declaring that I regard scientific knowledge as the  
most important kind of knowledge we have writes Sir Karl Popper in the opening essay of this book which collects his  
meditations on the real improvements science has wrought in society in politics and in the arts in the course of the twentieth  
century His subjects range from the beginnings of scientific speculation in classical Greece to the destructive effects of  
twentieth century totalitarianism from major figures of the Enlightenment such as Kant and Voltaire to the role of science  
and self criticism in the arts The essays offer striking new insights into the mind of one of the greatest twentieth century

backsliding in many countries around the globe at the present time due to various reasons Different nations may have their  
own particular reasons such as socioeconomic inequality poverty failure of checks and balances that may result in an abrupt  
military coup d etat to change from democracy to tyranny In nations where democracy failed there were no tanks on the  
street Constitution of the land remained but elected leaders became autocrats maintaining a veneer of democracy America  
being a nation with nearly 80 percent of Christians has been the strongest democracy in the world who championed it as the  
model for the rest of the world However democracy in America appears to be in peril because of political bickering partisan  
gridlock and promulgation of falsities misinformation and faux faith by one political party By introducing the foundational  
principles of democracy from the philosophical arguments of Socrates Plato and Aristotle the author shows how and why the  
cornerstone of democracy in America shows signs of crumbling The book vividly explains Politics without God will shatter the  
foundation of democracy Present political system rejects the checks and balances laid by the founding fathers The right wing  
has cultivated a spirit of untruth that spreads like a wildfire Rejecting truth by political parties and leadership is a sign of  
strong delusion There is a clear moral bankruptcy in the present political sphere of our nation The brightness of democracy  
in America which Tocqueville praised has been tarnished Hypocritic and dishonest leaders should not reign lest the people be  
ensnared American politicians must register their solemn oath in heaven to act in truth No nation can be established in one  
day but can shatter in one day by a despot America must realign with God to lead the nation in truth justice and freedom for

all Democracy turns to tyranny when a moral man becomes amoral With biblical prophecies and instructions the author shows that America faces a real threat to its democracy unless it resists tyrants with all their mind soul and strength which is obedience to God who can anchor the nation on its solid foundation set by the Founding Fathers Every citizen political and judicial leaders of the nation are the cupbearers and the watchmen of the nation      **Creating Human Value as Public Management Theory** Joseph Drew, 2025-04-16 Creating Human Value CHV is a powerful public management theory that places the person at the centre of all decision making It is founded on millennia old natural law philosophy updated to cope with contemporary problems At the heart of CHV is the ideal of human flourishing this is achieved through pursuing the common good via public policy in a way that respects human dignity To paraphrase Socrates it is about caring for the city rather than merely the city's possessions This book is the product of almost a decade of research and teaching of this compelling alternate public management theory to government decision makers in Australia and abroad In sum CHV is a much needed antidote to currently popular public management approaches that have unduly prioritized the common good over dignity with catastrophic consequences for the lives of many people This book will appeal to readers interested in public management public policy and government
