MARK SCHEME for the May/June 2014 series

0610 BIOLOGY

0610/63

Paper 6 (Alternative to Practical), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2014 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

The Commercial and Financial Chronicle ,1917 **Ethics and Law for Chemical, Biological, Radiological, Nuclear & Explosive Crises** Dónal P. O'Mathúna,Iñigo de Miguel Beriain,2019-04-25 This book provides a current analysis of the legal and ethical challenges in preparing for and responding to chemical biological radiological nuclear and explosive CBRNE crises From past events like the Chernobyl nuclear incident in Russia or the Bhopal chemical calamity in India to the more recent tsunami and nuclear accident in Japan or the Ebola crisis in Africa and with the on going threat of bioterrorism the need to be ready to respond to CBRNE crises is uncontroversial What is controversial is whether we are on a path that adequately prepares us for the next event The ethical and legal scholars in this volume hold that much work remains to be done and offer this book to stimulate further reflection and dialogue around CBRNE crises This is an indispensable book for both students and scholars of bioethics international law public health as well as for regulators and administrators developing policy and legislation related to public health planning and emergency responses **Climatological Data** ,1978
