¹⁷ Some have argued that although expenditures on transportation and other services, including health care, are substantial, they are not "costs" because they are not "paid" by the individual. But this is a narrow and misleading view of the concept of "cost." The costs of health care are not only the direct costs of the services themselves, but also the indirect costs of the services, such as the costs of lost productivity and the costs of the health care system as a whole. The costs of health care are not only the costs of the services themselves, but also the costs of the health care system as a whole.

Independent Review of Key Stage 2 Testing, Assessment and Accountability Final Report Independent Review of Key Stage 2 Testing, Assessment and Accountability, Lord Bew, Great Britain. Department for Education, Stationery Office (Great Britain), 2011-07-14 In this final report the Review finds that there must be external school level accountability in the system but that more trust should be placed in teachers with a greater weight given to their assessment of pupils A wider range of data including new progress and attainment measures and rolling averages should be taken into account to give a less arbitrary and fairer picture of a school's performance Recommendations include the current writing test should be replaced by teacher assessment of writing composition maths should continue to be externally tested reading tests should continue but should be refined over time science should continue to be teacher assessed with a sample test to monitor national standards speaking and listening should continue to be teacher assessed three year rolling averages should be introduced to give a rounded picture of a school's performance there should be a greater emphasis on the progress of pupils new progress and attainment measures should be introduced for pupils who have completed all of Years 5 and 6 in a school teacher assessment judgements should continue in English maths and science and should be submitted before test results are announced there should be more detailed reporting to secondary schools so Year 7 teachers know right from the outset a pupil's attainment and the areas where extra work is needed pupils who are ill on the day of a test should have a week to sit it rather than two days
