J-Reading n. 1-2013, 2013 *1990 Census of Population and Housing*, 1993 *Decisions and Orders of the National Labor Relations Board* United States. National Labor Relations Board, 2016-05 Middle-Income Trap Zhijie Zheng, 2020-09-21 This book explores the essence of the middle income trap based on two major perspectives namely economic transformation and social transformation. China has experienced high speed economic growth for nearly 40 years since the adoption of the Reform and Opening policies. However, China's economic growth has been slowing down significantly in recent years. Has China tumbled into the middle income trap? This book reveals the essence of the middle income trap: that a country's economic growth is facing a double squeeze in the middle income stage while the social structure and system are unsuitable for the new social development stage which leads to economic stagnation or recession and the aggravation of social contradictions that is the double predicament of economic transformation and social transformation. This judgment is of great value for understanding the problems encountered in the current development of China.

Mexico International Monetary Fund. Western Hemisphere Dept., 2014-12-01 This paper discusses Mexico's Request for Arrangement Under the Flexible Credit Line (FCL) and Cancellation of the Current Arrangement. Mexico's macroeconomic policies and policy frameworks remain very strong. Real GDP growth is projected to accelerate to 3.5 percent in 2015. The authorities are requesting a new FCL arrangement for two years at the same level of access. In their view, the risk of a rapid rebalancing of investor portfolios away from emerging markets remains elevated. The IMF staff considers the proposed access level of SDR 47.292 billion to be appropriate. Uncertainties surrounding the global outlook, including risks related to the tightening of monetary policy in the United States, remain high.
