Respect is one of the basic human rights. Every human being, nation and state deserve respect, realized through non-violation of their rights and freedoms. A dictionary definition of respect is admiration of someone or something as a result of their qualities or achievements. However, this definition can be extended with respect of feelings and needs of others without any special reasons. All human beings deserve respect and need to be treated with respect.

All people want to be treated with respect, often showing disrespect to the feelings and needs of others at the same time. The main instances of disrespect are rude words, limitation of freedom and imperious attitude. The generation gap can often become a reason for the lack of understanding and disrespect. Children can be rude with their parents, trying to defend their right for freedom of choice. Parents in their turn often disrespect children's wishes, trying to prevent their mistakes. Of course, if a child wants to do something obviously bad, such as try drugs or drop out from high school, parents should explain why this decision is wrong and what negative consequences it can have. However, when a child wants to listen to some genre of music and choose a college they like, parents should respect their kids' right for freedom of choice. Respect is an important factor which is necessary for building a trustful relationship.

People should understand that they deserve respect and they should demand to be treated correspondingly. Trying to avoid conflicts and to reach compromises, some people can sacrifice their own interests. Forgetting personal needs and desires often results in nervous breakdowns and negative psychological effects. It is important to understand that every person has the right for personal space, personal time and freedom of choice and it is normal to ask others to respect this right. Another important aspect is respecting people despite their nationality, ethnicity, religious beliefs or physical appearances. The increasing rates of bullying in schools and colleges because someone does not meet the Hollywood standards of beauty clearly show that youths lack empathy and respect to others. On the other hand, the victims of bullying who get complexes of inferiority should learn more about self-respect and their right to be treated with respect. Showing respect and being treated with respect is a two way process. People should always treat others the way they would like to be treated themselves.

1000 Word Essay On Feudalism:

The Birth of Nobility David Crouch, 2015-10-23 For 300 years separate and mutually uncomprehending English and French historiographies have confused the history of medieval aristocracy Unpicking the basic assumptions behind both national traditions this book explains them reconciles them and offers entirely new ways to take the study of aristocracy forward in both England and France The Birth of Nobility analyses the enormous international field of publications on the subject of medieval aristocracy breaking it down into four key debates noble conduct noble lineage noble class and noble power Each issue is subjected to a thorough review by comparing current scholarship with what a vast range of historical source material actually says It identifies the points of divergence in the national traditions of each of these debates and highlights where they have been mutually incomprehensible For students studying medieval Europe

The Use of Canon Law in Ecclesiastical Administration, 1000-1234, 2018-11-05 The Use of Canon Law in Ecclesiastical Administration 1000 1234 explores the integration of canon law within administration and society in the central Middle Ages Grounded in the careers of ecclesiastical administrators each essay serves as a case study that couples law with social political or intellectual developments Together the essays seek to integrate the textual analysis necessary to understand the evolution and transmission of the legal tradition into the broader study of twelfth century ecclesiastical government and practice The essays therefore both place law into the wider developments of the long twelfth century but also highlight points of continuity throughout the period Contributors are Greta Austin Bruce C Brasington Kathleen G Cushing Stephan Dusil Louis I Hamilton Mia M nster Swendsen William L North John S Ott and Jason Taliadoros

Feud, Violence and Practice Tracey L. Billado, 2016-04-15 This collection presents an innovative series of essays about the medieval culture of Feud and Violence Featuring both prominent senior and younger scholars from the United States and Europe the contributions offer various methods and points of view in their analyses All however are indebted in some way to the work of Stephen D White on legal culture politics and violence White s work has frequently emphasized the importance of careful closely focused readings of medieval sources as well as the need to take account of practice in relation to indigenous normative statements His work has thus made historians of medieval political culture keenly aware of the ways in which various rhetorical strategies could be deployed in disputes in order to gain moral or material advantage Beginning with an essay by the editors introducing the contributions and discussing their relationships to Stephen White s work to the themes

of the volume to each other and to medieval and legal studies in general the remainder of the volume is divided into three thematic sections The first section contains papers whose linking themes are violence and feud the second section explores medieval legal culture and feudalism whilst the final section consists of essays that are models of the type of inquiry pioneered by White *The Transformation of the Year One Thousand* Guy Bois,1992 This is a study of the village of Lournand near Cluny which lies at the heart of the little territory that is probably the best documented in the whole of the West in the late 10th and 11th centuries In tracing the development of the community from antiquity to feudalism the author creates a new model for the European context of feudalism challenging existing interpretations of medieval social and economic development Originally published in French in 1989 Heralded by Georges Duby as a landmark in the study of feudalism **The Aristocracy in England and Tuscany, 1000-1250** Peter R. Coss,2020 This volume examines the aristocracy in Tuscany and in England in the years 1000 1250 offering a new way of studying English aristocracy in this period by tracing Italian aristocratic history and then employing the same historiographic tools within English history

Irish Kingship in the Eleventh and Twelfth Centuries Ronan Mulhaire,2025-05-23 Irish Kingship in the Eleventh and Twelfth Centuries examines the power of medieval Irish kings but treats power as a complex concept worthy of study in its own right It starts from the premise that historians of medieval Ireland have interpreted power in a narrow way This book engages with the rich corpus of literature on power produced by political scientists and sociologists which reveals the sheer complexity and vicissitudes of power as a concept Where there is power there is resistance Hence drawing on evidence from medieval Irish chronicles hagiographies saga literature and advice texts this book explores the largely ignored phenomena of revolt resistance and violence in eleventh and twelfth century Ireland It argues against a panoptic narrative of royal centralisation and suggests that the existence of a multiplicity of kings and non royal lords has proven to be more of a problem for historians than it was for the Irish kings themselves This book will appeal to scholars and students of medieval Ireland as well as those interested in the history of kingship power and resistance **The State in India, 1000-1700**

Hermann Kulke,1995 Since the 1940s revaluations of the nature of the State have been a major preoccupation among historians worldwide There has been a debate on the extent to which the State is independent of the interests of the ruling class Pre colonial India provides a unique testing ground for such debates for it provides examples of State forms which vary enormously Yet serious consideration of the nature of State forms in India was often overwhelmed by a focus on caste and brahminism Now however as Professor Kulke demonstrates in his Introduction to this book which consists of all the major essays on this important theme several basic forms of the State can be isolated Although the notion of centralized empire still dominates the historiography alternative models such as the segmentary state and the patrimonial state have given rise to productive debates *The Scripting of Domination in Medieval Catalonia* Eugene L. Mendonsa,2008 These historical data are analyzed in light of theories of political economy agency and action theories and a general approach Mendonsa develops

in a forthcoming work that analyzes how aggrandizers began to fabricate institutions of domination once property became a significant historical material condition of the Neolithic The present work looks at the manufacture of rules of domination in the more limited context of medieval Catalonia and Aragon between the eleventh and fifteenth centuries BOOK JACKET

Waugh,Peter Diehl,2002-07-18 From the eleventh century onward Latin Christendom was torn by discontent and controversy As the Church and secular rulers defined more clearly than ever before the laws and institutions on which they based their power they demanded greater uniformity and obedience to their authority The essays in this book cast new light on the dynamics of repression highlighting the controversies and discontent that troubled medieval society Looking especially at the mechanisms underlying the dissemination of heterodoxy and its repression the religious aspirations of women the fate of non Christian minorities in Europe and changing boundaries between orthodoxy and heterodoxy the authors provide a new understanding of the Church s response to the diversity of belief and practice by which it was confronted
