Part (b) Discuss, with reasons, the impact of the information contained in Mr Light's email on the likely quality of Saal's audit of the 2013 financial statements of Sage.

There is doubt whether Saal will provide a high quality audit service to Sage, and candidate needs to have an opinion, i.e. yes or no.

1. It is likely that a high quality audit will not be performed because of the following:

1.1	Mr Lubbe is currently under tremendous pressure due to a large client portfolio – this may result in him not giving sufficient attention to this audit, which means that he will not be in a position to adhere to his responsibilities in terms of ISA 220.	Pressure due to large client portfolio, sufficient attention and adherence to responsibilities.	1
1.2	Mr Light (a director of Saal) told the engagement partner of Sage not to worry too much about getting the engagement letter issued to Sage and signed as he regards it as 'just a formality' – yet this is a requirement of ISA 210.10. - This may indicate a lack of cognisance by the directors of Saal of the importance of compliance with the International Standards on Auditing (ISA), which may result in the audit not being conducted in accordance with these standards. - Without the engagement letter, the auditor cannot be sure that all the preconditions for performing an appropriate audit per ISA 210.6 are satisfied (i.e. that management commits itself to its responsibility for preparing the AFS, maintaining an adequate system of internal control to enable the preparation of the financial statements, etc.).	Not to worry about engagement letter – BUT requirement of ISA Lack of compliance with ISA = audit not in accordance with stds Pre-conditions for approp audit many not be satisfied, ment integrity etc	1 1 1
1.3	Mr Light – a director of Saal and engagement quality control review partner of Sage - Mr Light's wife is the sister of Mr Moller's wife. This may potentially create a familiarity/self-interest independence threat as a result of the close family relationship. - The threat is significant and safeguards must be implemented – Mr Light should not be on the audit and should not perform the quality control of the audit or influence the outcomes. - This may result in Mr Light not meeting his responsibilities in terms of ISQC 1.37, which will undermine the effectiveness of the engagement performance. Given the nature of the EQCR's comments in the email, there is serious doubt whether the engagement quality control review function will be performed effectively (as required by ISQC 1.35). If this function is not rendered effectively, the benefit of having a second opinion on significant audit judgments and conclusions will be eroded – and the inappropriate audit opinion may be expressed.	Familiarity threat as EQCR partner's wife is sister of SAGE's CEO's wife Threat is significant – must implement safeguards May result in ineffective engagement performance Doubt surrounding QCR function	1 1 1
1.4	Saal lost the audit of Eskom because of dissatisfaction with the professional services provided – in spite of the fact that those services were provided at a low audit fee. This may indicate that a high quality audit service was not provided to Eskom, a situation that may recur in the audit of Sage.	Loss of Eskom = possible lack of audit quality	1
1.5	Mr Light indicated that Mr Lubbe would be able to use his knowledge of the energy industry to reduce audit hours on Sage as Mr Lubbe will know 'where to scratch and where to turn a blind eye' – this may indicate that ISAs will not be complied with. - Moreover, 'turning a blind eye' to certain matters indicates a lack of ethical conduct (professional competence and due care / integrity) – which is a fundamental requirement in terms of ISQC 1.20 in order to ensure quality work. - This will create a self-interest threat for professional competence and due care. The threat will be significant and the audit should be conducted according to ISQC 1 and all aspects should be	Knowledge of energy industry to reduce hours = ISA's not complied with May indicate lack of ethical conduct – Prof Competence, due care, integrity Self-interest threat for professional competence	1 1 1

engineers and graduate students in the fields of robotics artificial intelligence and control systems It is particularly useful for those interested in robotic manipulation autonomous learning and bio inspired systems The detailed technical explanations and cutting edge research make it an essential resource for professionals seeking to push the boundaries of robotic dexterous manipulation The book s practical applications make it relevant for many real world manipulation scenarios including healthcare and manufacturing

The Statebuilder's Dilemma David A. Lake, 2016-06-10 The central task of all statebuilding is to create a state that is regarded as legitimate by the people over whom it exercises authority This is a necessary condition for stable effective governance States sufficiently motivated to bear the costs of building a state in some distant land are likely to have interests in the future policies of that country and will therefore seek to promote loyal leaders who are sympathetic to their interests and willing to implement their preferred policies In *The Statebuilder's Dilemma* David A Lake addresses the key tradeoff between legitimacy and loyalty common to all international statebuilding attempts Except in rare cases where the policy preferences of the statebuilder and the population of the country whose state is to be built coincide as in the famous success cases of West Germany and Japan after 1945 promoting a leader who will remain loyal to the statebuilder undermines that leader s legitimacy at home In Iraq thrust into a statebuilding role it neither anticipated nor wanted the United States eventually backed Nouri al Malaki as the most favorable of a bad lot of alternative leaders Malaki then used the support of the Bush administration to govern as a Shiite partisan undermining the statebuilding effort and ultimately leading to the second failure of the Iraqi state in 2014 Ethiopia faced the same tradeoff in Somalia after the rise of a promising but irredentist government in 2006 invading to put its own puppet in power in Mogadishu But the resulting government has not been able to build significant local support and legitimacy Lake uses these cases to demonstrate that the greater the interests of the statebuilder in the target country the more difficult it is to build a legitimate state that can survive on its own
