Gomes, 2016-12-01 The growing mobility of people within and into the Asia Pacific region has created environments of increasing diversity as nations become hosts to both permanent and temporary multicultural societies How do we begin to gauge the impact of mobility and multiculturalism on individuals and groups in this diverse region today The authors of *The Asia Pacific in the Age of Transnational Mobility* turn to social media as a tool of inquiry to map how mobile subjects and minorities articulate their sense of community and identity The authors see social media as a platform that allows users to document and express their individual and collective identities sometimes in restrictive communication environments while providing a sense of belonging and agency They present original empirical work that attempts to help readers understand how mobile subjects who circulate in the Asia Pacific create a sense of community for themselves and articulate their ethnic ideological and national identities **Disasters, Risks and Revelation** Steve Matthewman, 2016-04-29 Disasters are part

of the modern condition a source of physical anxiety and existential angst and they are increasing in frequency cost and severity Drawing on both disaster research and social theory this book offers a critical examination of their causes consequences and future avoidance The EU's Role in Fighting Global Imbalances Antonina Bakardjieva Engelbrekt, Moa Mårtensson, Lars Oxelheim, Thomas Persson, 2015-11-27 *The EU's Role in Fighting Global Imbalances* looks at the role of the European Union in addressing some of the greatest challenges of our time poverty protectionism climate change and human trafficking The recent crisis has depleted the Union's economic and political resources At the same time the Union is like never before expected to confront these global challenges on the world political arena where new regional power centres are establishing themselves Based on a broad and interdisciplinary understanding of the concept of global imbalances this book argues that these challenges follow from pervasive global imbalances which at root are economic political and legal in character Contributions from ten leading scholars in the fields of economics law and political science provide in depth analyses of three key dimensions of EU foreign policy namely the internal challenges facing the EU as its 28 member

countries struggle to coordinate their actions the external challenges facing the EU on the global arena in areas where global imbalances are particularly pervasive and where measures taken by the Union can have an important impact and the EU's performance on the global arena in the eyes of other key actors This policy oriented interdisciplinary volume offers real insight into the European Union and its role in global affairs and will appeal to academics and policy makers alike

India-China Relations Jagannath P. Panda, 2016-10-04 The rise of India and China as two major economic and political actors in both regional and global politics necessitates an analysis of not only their bilateral ties but also the significance of their regional and global pursuits This book looks at the nuances and politics that the two countries attach to multilateral institutions and examines how they receive react to and approach each other's presence and upsurge The driving theme of this book is to highlight the enduring and emerging complexities in India China relations which are multi layered and polygonal in nature and both a result and reflection of a multipolar world order The book argues that coexistence between India and China in this multipolar world order is possible but that it is limited to a medium term perspective given the constraints of identity complexities and global aspirations these two rising powers are pursuing It goes on to discuss how their search for energy resources quest to uphold their own identity as developing powers and engagement in balance of power politics to exert authority on each other's presence are some elements that guide their non cooperative relationship By explaining the foreign policy approaches of Asia's two major powers towards the growing Asian and global multilateralism and highlighting the policies they carry towards each other the book is a useful contribution to students and scholars of Asian Politics Foreign Policy and International Relations

Marginal Urbanisms Felipe Hernández, 2017-05-11 This volume reflects on urban development strategies that have been implemented recently in Latin America Over the past twenty years there has been great improvement in governmental efficiency with local and national governments executing important projects that increase the quality of life in cities However the causes of collective disadvantage which created the problems governments attempt to resolve continue to affect many people throughout the continent Thus the essays here examine a wide range of socioeconomic political ethnic and historical issues that have influenced the emergence of marginal urbanisms in Latin American cities The argument most strongly presented in this book is that infrastructural insertions need to be considered as the baseline for urban development not as its main goal Urban infrastructure cannot be taken as the only target for urban development programmes but rather as an instrument for achieving more significant and inclusive urban transformations that respond more adequately to the realities of the people who inhabit Latin American cities Exploring the Role of Visualization in Climate Change Communication - an Audience Perspective Anne Gammelgaard

Ballantyne, 2018-05-08 Climate change communication is a topical and relevant issue and it is widely acknowledged that public communication about causes impacts and action alternatives is integral to addressing the challenges of the changing climate Climate visualization concerns the communication of climate information and data through the use of different

information technologies and different modes of visual representation In the context of climate change communication climate visualization is highlighted as a potential way of increasing public engagement with climate change In particular developments within information technology have provided significant advancements that are claimed to be transformative in engaging lay audiences with issues relating to the mitigation of and adaptation to climate change Nevertheless there is a lack of research exploring climate visualization from an audience perspective This thesis addresses this gap The overarching aim is thus to explore the role of climate visualization in climate change communication from an audience perspective focusing specifically on how lay audiences make meaning of climate change as represented in two examples of climate visualization In addition the thesis discusses the potential contributions and or limitations of climate visualization from a communication perspective Based on a social semiotic theoretical framework this thesis employs focus group interviews to study participants meaning making related to two cases of climate visualization a dome theatre movie developed for Swedish high school students with the aim of encouraging reflection on climate change causes impacts and mitigation alternatives and a web based tool for climate change adaptation developed to assist Nordic homeowners in adapting to the local impacts of climate change The results of this thesis show that climate visualization can help audiences concretize otherwise abstract aspects of climate change and that the localized focus can make climate change appear more personally relevant and interesting for targeted audiences Nevertheless despite these communicative qualities the analyses also show that participants interpretations are shaped by their preconceptions of climate change as a global and distant issue to be solved by other actors such as national governments or through international policy negotiations Although climate visualization can enhance a sense of proximity with climate change the localization of climate risk can also lead to participants downplaying the significance of climate impacts In addition despite the intentions of inducing a sense of agency in both cases of climate visualization participants critically negotiated messages concerning their roles as individuals in mitigating or adapting to climate change and assigned this responsibility onto other actors These findings show that although climate visualization presents certain communicative qualities it is not a panacea for engaging lay audiences with climate change This also underlines the importance of considering cultural and social aspects of the communicative event when studying and developing climate visualization tools as a means of communication

Kommunikation kring klimat förändringar är ett aktuellt och relevant mne och många bedömare anser att kommunikation kring orsaker effekter och möjliga alternativ är en viktig del i arbetet med att möta klimatutmaningarna Klimatvisualisering är en process för att skilja klimatinformation och klimatdata med hjälp av olika tekniker och metoder för visuell framställning I forskningslitteraturen om klimatkommunikation lyfts visualisering fram som ett möjligt sätt att öka allmänhetens engagemang i klimatfrågan I synnerhet har utvecklingen inom informationsteknik lett till betydande framsteg som kan ses som omvälvande när det gäller att engagera lekman i frågor som rör utsläppsminskningar och klimatanpassning Det råder dock brist på forskning om klimatvisualisering ur ett mottagarperspektiv

Denna avhandling adresserar denna kunskapslucka. Det övergripande syftet är att utforska visualiseringens roller i klimatkommunikation ur ett mottagarperspektiv med särskilt fokus på hur läsaren tolkar innebörden av klimatförändringar som de representeras i tv-exempel på klimatvisualisering. Avhandlingen behandlar även klimatvisualiseringens möjliga bidrag och eller begränsningar ur ett kommunikationsperspektiv. Med utgångspunkt i ett teoretiskt ramverk som inspirerats av socialsemiotiska teorier genomfördes fokusgruppsstudier för att studera deltagarnas meningsskapande i relation till tv-exempel på klimatvisualisering, en film som visas i en domteater framtagen för svenska gymnasieelever med målsättningen att uppmuntra till reflektion kring klimatförändringarnas orsaker, effekter och alternativ för utsläppsminskning samt ett webbaserat verktyg för klimatanpassning som utvecklats för att stödja husägare i Norden att anpassa sig till klimatförändringarnas lokala effekter. Resultaten av denna avhandling visar att klimatvisualisering kan stödja mottagarna att konkretisera annars abstrakta aspekter av klimatförändringar och att ett lokalt fokus kan för klimatförändringarna att framstå som mer personligt relevanta och intressanta för målgruppen. Dock visar analyserna även trots dessa kommunikativa kvaliteter att deltagarnas tolkningar formas av deras förståelse om klimatförändringar som ett globalt och avlägset problem som ska lösas av andra aktörer som nationella regeringar eller genom internationella politiska förhandlingar. Även om klimatvisualisering kan förstås som en ledning till klimatförändringar kan lokaliseringen av klimatriskerna även leda till att deltagare tonar ned de lokala klimatriskernas betydelse. Dessutom trots att både fallen av klimatvisualisering avseende att skapa en känsla av att kunna påverka blev svaret för klimatutgårderna för en kritisk förhandling för deltagarnas sida om svaret för att hantera klimatutmaningarna till andra aktörer. Dessa resultat visar att klimatvisualisering visserligen har vissa kommunikativa kvaliteter men inte någon patentlösning för klimatkommunikation. Detta understryker även vikten av att ta hänsyn till kulturella och sociala aspekter av den kommunikativa handlingen när man studerar och utvecklar verktyg för klimatvisualisering.

Switzerland International Monetary Fund. European Dept., 2018-06-18 This Selected Issues paper analyzes key features of corporate taxation in Switzerland. The Swiss corporate tax system includes many aspects of a territorial regime, is highly attractive for multinational companies and collects non-negligible revenues but the status quo is not sustainable. The proposed reform would eliminate differences in the tax treatment of foreign and Swiss sourced income. Further, cantons are expected to lower their corporate income tax CIT rates, bringing the combined municipal, cantonal and federal tax rate averaged across cantons to about 13.9 percent. Costs of lowering the CIT rates would be unequally distributed across cantons and would be costlier for cantons with a large immobile CIT base.

Nationality of Foundlings Mai Kaneko-Iwase, 2021-09-24 This is the first book dedicated to clarifying the concept of foundlings and how to best prevent their statelessness in light of the object and purpose of Article 2 of the 1961 UN Convention on the Reduction of Statelessness and equivalent nationality law provisions. Among other features, the book defines the terms foundling, including the maximum age limit of the child to be considered a foundling, unknown parents being found in a territory and proof to the

contrary as well as the procedural issues such as the appropriate burden and standard of proof In doing so the book draws upon a comparative analysis of national legislation on foundlings covering 193 states case law and precedents in some states as well as international human rights law norms including the best interests of the child As its conclusion the book proposes an inclusive model foundling provision and a commentary to inform legislative efforts and interpretation of the existing provisions Its findings are useful not only to state parties to the 1961 Convention but also to non state parties particularly in countries lacking systematic civil documentation or experiencing the effects of armed conflicts migration trafficking and displacement

Challenges of European External Energy Governance with Emerging Powers Michèle Knodt, Nadine Piefer, 2016-03-03 In a multipolar world with growing demand for energy not least by Emerging Powers such as Brazil India China or South Africa BICS questions of EU external energy governance would at first hand appear to be a high priority Yet reality tells a different story the EU's geographical focus remains on adjacent countries in the European neighbourhood and on issues related to energy security Despite being Strategic Partners and engaging in energy dialogues it seems that the EU is lacking strategic vision and is not perceived as a major actor in energy cooperation with the BICS Thus political momentum for energy cooperation and joint governance of scarce resources is vanishing Resulting from three years of international interdisciplinary research cooperation among academics and practitioners in Europe and the BICS countries within a project funded by the Volkswagen Foundation this volume addresses one of the greatest global challenges Specific focus lies on the bilateral energy dialogues and Strategic Partnerships between the EU and Emerging Powers regarding bilateral inter and transnational energy cooperation Furthermore the analysis provides policy recommendations in order to tap the full potential of energy cooperation between the EU and Brazil India China and South Africa

Catalonia: A New Independent State in Europe? Xavier Cuadras Morató, 2016-04-20 Catalonia A New Independent State in Europe examines the main issues of the political process which is taking place in Catalonia today The political confrontation between the Spanish and Catalan institutions has now reached the international arena especially the debates concerning international recognition of a new Catalan state and its membership of the European Union EU and other international institutions There are no precedents for the secession of a region from an EU member country that could be applied to the case of Catalonia Therefore it is not surprising that the world has many unanswered questions about the process This volume aims to provide answers to many of these questions in a systematic and rigorous way Why has the political scenario in Catalonia changed so radically and so rapidly Is this new situation only temporary and support for independence is likely to vanish very soon What role has the deep economic crisis in Catalonia and in Spain played in the process Is a potential new Catalan state economically viable Which are the main legal controversies about self determination and independence between the Spanish and Catalan institutions Would an independent Catalonia be a member of the EU This book will be of great use to academics and students in the field of politics and international relations particularly those interested in European economic and

political studies It will also interest a wide segment of general readers interested in contemporary political issues Moving the AEC Beyond 2015 Tham Siew Yean, 2018-02-14 The ten Southeast Asian economies reached a milestone on 31 December 2015 when they announced the formation of an ASEAN Community Although this includes three pillars ASEAN Political Security Community ASEAN Economic Community AEC and the ASEAN Socio Cultural Community it is the economic pillar that generates immense debate due to its expected quantifiable benefits to member countries This book thus focuses on the ASEAN Economic Community and seeks to explain the need for building domestic consensus within the member countries It starts with an overview chapter describing the current achievements of the AEC It then explores possible explanations for the achievements non achievements and offers a hypothesis on conflicting economic interests in a country as one possible explanation for gaps in implementation This is because any form of economic liberalisation brings with it the winners and losers thereby raising resistance to liberalization measures and slowing down the implementation process The book includes six country chapters Indonesia Malaysia the Philippines Singapore Thailand and Vietnam that examine sources of domestic conflict s in greater detail and depth It also includes a regional chapter co authored by the ex Secretary General of ASEAN Mr Rodolfo Severino that brings out the political nature of ASEAN economic cooperation since its inception in 1976 For ASEAN beyond 2015 the book articulates the need to obtain a strong domestic consensus that supports the integration initiatives of the AEC This can be viewed as a way forward to accelerate and deepen integration within ASEAN The book concludes with some suggestions on how each country can move towards achieving domestic consensus based on the respective country level analysis
