personal debt in modern America Before the twentieth century personal debt resided on the fringes of the American economy
the province of small time criminals and struggling merchants By the end of the century however the most profitable
corporations and banks in the country lent money to millions of American debtors How did this happen The first book to
follow the history of personal debt in modern America Debtor Nation traces the evolution of debt over the course of the
twentieth century following its transformation from fringe to mainstream thanks to federal policy financial innovation and
retail competition How did banks begin making personal loans to consumers during the Great Depression Why did the
government invent mortgage backed securities Why was all consumer credit not just mortgages tax deductible until 1986
Who invented the credit card Examining the intersection of government and business in everyday life Louis Hyman takes the
reader behind the scenes of the institutions that made modern lending possible the halls of Congress the boardrooms of
multinationals and the back rooms of loan sharks America s newfound indebtedness resulted not from a culture in decline but
from changes in the larger structure of American capitalism that were created in part by the choices of the powerful choices
that made lending money to facilitate consumption more profitable than lending to invest in expanded production From the
origins of car financing to the creation of subprime lending Debtor Nation presents a nuanced history of consumer credit
practices in the United States and shows how little loans became big business Kiplinger's Personal Finance ,1971-04 The
