 Literature as Document considers the relationship between documents and literary texts in Western Literature of the 1930s
 More specifically the volume deals with the notion of the document and its multifaceted and complex connections to literary
 texts and attempts to provide answers to the problematic nature of that relationship In an effort to determine a possible
 theoretical definition many different disciplines have been taken into account as well as individual case studies In order to
 observe dynamics and trends the idea for this investigation was to look at literature taking its practices its factual looking
 and concrete applications as a point of departure that is to say then starting from the literary object itself **Paragraphs**
