Definition of Nursing? Answer- Nursing is the protection, promotion, and optimization of health and abilities, prevention of illness and injury, facilitation of healing, alleviation of suffering through the diagnosis and treatment of human response, and advocacy in the care of individuals, families, groups, communities, and populations.

the professional organization for all registered nurses? Answer- The American Nurses Association (ANA)

Registered Nurses (RN) Answer- individuals who are educationally prepared and licensed by a state, commonwealth, territory, government, or regulatory body to practice as a registered nurse. "Nurse" and "professional nurse" are synonyms for a registered nurse in this document.

Advanced practice registered nurses (APRNs) Answer- Who have completed an accredited graduate-level education program preparing the nurse for one of the four recognized APRN roles [certified registered nurse anesthetist (CRNA), certified nurse midwife (CNM), clinical nurse specialist (CNS), or certified nurse practitioner (CNP)]; • Who have passed a national certification examination that measures APRN-, role-, and population-focused competencies and maintain continued competence as evidenced by recertification in the role and population through the national certification program; • Who have acquired advanced clinical knowledge and skills preparing the nurse to provide direct care to patients, as well as a component of indirect care; however, the defining factor for all APRNs is that a significant component of the education and practice focuses on direct care of individuals; • Whose practices build on the competencies of registered nurses (RNs) by demonstrating a greater depth and breadth of knowledge, a greater synthesis of data, increased complexity of skills and interventions, and greater role autonomy; • Who are educationally prepared to assume responsibility and accountability for health promotion and/or maintenance as well as the assessment, diagnosis, and management of patient problems, which includes the use and prescription of pharmacologic and non-pharmacologic interventions; • Who have clinical experience of sufficient depth and breadth to reflect the intended license; and • Who have obtained a license to practice as an APRN in one of the four APRN roles: certified registered nurse anesthetist (CRNA), certified nurse midwife (CNM), clinical nurse specialist (CNS), or certified nurse practitioner (CNP) (APRN Joint Dialogue Group, 2008).
