island's allure as an elite global paradise was cloaked by a revolution that brought down its rich and powerful. When a poor native farm boy named Victor Gomez is suddenly orphaned and adopted by one of the most influential families in his hometown, he meets and falls for Sarita Rodriguez, a supermodel and media empire heiress just before Fidel Castro overthrows President Fulgencio Batista and takes control of the island. After Castro raids Victor's new family's estate and imprisons his father, Victor narrowly escapes and flees to the US, where he accepts an unconventional, deadly deal as a spy to save his country. Still just a teen, Victor finds himself in a cycle of betrayal, struggling to find truth and purpose while torn between protecting his now powerless parents, finding his disbanded biological siblings, and secretly pursuing Sarita as she rises to international fame from New York. Based on the true story of the author's family, *Isla Vulnerable* weaves a captivating tale of love, sacrifice, and human resilience in the face of extraordinary historical events, including the Cold War, the Cuban missile crisis, the CIA's covert operations in foreign affairs, Operation Mongoose, and the assassination of JFK. A dynamic cast of real-life inspired characters, meticulous attention to historical detail, edge-of-your-seat spy scenes, and a love story that transcends social classes compose an ideologically unbiased, heartwarming, and cinematic journey in this author's first published book.

Proceedings of the 3rd International Conference on Internet, Education and Information Technology (IEIT 2023) Dhananjay Kumar, Pavel Loskot, Qingliang Chen, 2023-09-01. This is an open access book. The 3rd International Conference on Internet Education and Information Technology IEIT 2023 was held on April 28-30, 2023, at the Xiamen, China. With the development of science and technology, information technology and information resources should be actively developed and fully applied in all fields of education and teaching so as to promote the modernization of education and cultivate talents to meet the needs of society. From the technical point of view, the basic characteristics of educational informatization are digitalization, networking, intelligentization, and multi-media. From the perspective of education, the basic characteristics of educational information are openness, sharing, interaction, and cooperation. With the advantage of the network, it can provide students with a large amount of information and knowledge by combining different knowledge and information from various aspects in a high frequency. Therefore, we have intensified efforts to reform the traditional teaching methods and set up a new teaching concept from the interaction between teachers and students in the past to the sharing between students. In short, it forms a sharing learning mode. For all students strive to achieve students learning independence, initiative, and creativity. To sum up, we will provide a quick exchange platform between education and information technology so that more scholars in related fields can share and exchange new ideas. The 3rd International Conference on Internet Education and Information Technology IEIT 2023 was held on April 28-30, 2023, in Xiamen, China. IEIT 2023 is to bring together innovative academics and industrial experts in the field of Internet Education and Information Technology to a common forum. The primary goal of the conference is to promote research and developmental activities in Internet Education and Information Technology, and another goal is to promote scientific information interchange between researchers.

developers engineers students and practitioners working all around the world The conference will be held every year to make it an ideal platform for people to share views and experiences in international conference on Internet Education and Information Technology and related areas
