Moody, Nicholas A. Yanes, 2021-02-26 NBC's *Hannibal* only lasted for three seasons but became a critical darling and quickly inspired a ravenous fanbase Bryan Fuller's adaptation of Hannibal Lecter's adventures created a new set of fans and a cult audience through its stunning visuals playful characters and mythical tableaux of violence that doubled as works of art The show became a nexus point for viewers that explored consumption queerness beauty crime and the meaning of love through a lens of blood and gore Much like the show this collection is a love letter to America's favorite cannibal celebrating the multiple ways that Hannibal expanded the mythology food culture fandom artistic achievements and religious symbolism of the work of Thomas Harris Primarily focusing on Hannibal this book combines interviews and academic essays that examine the franchise its evolution creatively bold risks and the art of creating a TV show that consumed the hearts and minds of its audience **Everybody's Family Romance** Gillian Harkins, 2009 In the 1990s a boom in autobiographical novels and memoirs about incest emerged making incest one of the hottest topics to connect daytime TV talk shows the self-help industry and the literary publishing circuit In *Everybody's Family Romance* Gillian Harkins places this proliferation of incest literature at the center of transformations in the political and economic climate of the late twentieth century Harkins's interdisciplinary approach reveals how women's narratives about incest were co-opted by and yet retained resistant strains against the cultural logics of the neoliberal state Across chapters examining legal cases on recovered memory popular journalism and novels and memoirs by Dorothy Allison Carolivia Herron Kathryn Harrison and Sapphire Harkins demonstrates that incest narratives look backward into the past In these accounts images of incest forge links between U.S. chattel slavery and the distributive impasses of the welfare state and between decades distant childhoods and emergent memories of the present In contrast to recent claims that incest narratives eclipse broader frameworks of political and economic power Harkins argues that their emergence exposes changing structural relations between the family and the nation and in doing so transforms the analyses of American familial sexual violence *The Gothic in Contemporary Literature and Popular Culture* Justin Edwards, Agnieszka Soltysik Monnet, 2013-02-15 This interdisciplinary collection brings together world leaders in Gothic Studies offering dynamic new readings on popular Gothic cultural productions from the last

New Romantic Cyborgs Mark Coeckelbergh, 2017-02-24 An account of the complex relationship between technology and romanticism that links nineteenth century monsters automata and mesmerism with twenty first century technology's magic devices and romantic cyborgs Romanticism and technology are widely assumed to be opposed to each other Romanticism understood as a reaction against rationalism and objectivity is perhaps the last thing users and developers of information and communication technology ICT think about when they engage with computer programs and electronic devices And yet as Mark Coeckelbergh argues in this book this way of thinking about technology is itself shaped by romanticism and obscures a better and deeper understanding of our relationship to technology Coeckelbergh describes the complex relationship between technology and romanticism that links nineteenth century monsters automata and mesmerism with twenty first century technology's magic devices and romantic cyborgs Coeckelbergh argues that current uses of ICT can be interpreted as attempting a marriage of Enlightenment rationalism and romanticism He describes the romantic dialectic when this new kind of material romanticism particularly in the form of the cyborg as romantic figure seems to turn into its opposite He shows that both material romanticism and the objections to it are still part of modern thinking and part of the romantic dialectic Reflecting on what he calls the end of the machine Coeckelbergh argues that to achieve a more profound critique of contemporary technologies and culture we need to explore not only different ways of thinking but also different technologies and that to accomplish the former we require the latter
