Global Trend Myth Retelling:

Resistance and Literature in a Global Context Prakash Chandra Pradhan, 2025-02-24 The comprehensive volume delves into the discursive valences and contingencies of resistance. It examines key issues and situations within the complex power dynamics of various cultures, societies, nations, and ethnicities. It explores the varying meanings of resistance in different contexts with analyses of select literary texts from various works of literature worldwide that range from Tribal writings in English and Nepalese literature to British literature and American literature. It evaluates various factors including structure, situation, context, culture, agency, place, motives, ideology, and oppression within the discourse of resistance. It emphasizes the cultural relevance of the study of resistance across a range of fields such as postcolonialism, feminism, ecocriticism, gender relations, and sexuality, myth and folklore, existentialism, cultural studies, rural feminism, trauma theory, and violence, globalization, ethnicity, and identity, child trafficking, and third gender issues, subalternity, and marginality. The book covers the genres of novels, poetry, autobiography, and short stories. It investigates the potency of these literary forms as cultural expressions of resistance. It is an essential read for students, researchers, and teachers worldwide who are enthusiastic and curious about the meanings and contexts of resistance and its representations in literature. **Global**

Trends in Media and Communications Mr. Anant Chauhan Vishwendra, 2021-09-11 In the past decades, global media and communication industry has developed into a rapidly expanding field with a large number of players. Communications across borders consist of flows of words, images, texts, and data that move between and among individuals, governments, social movements, and business organizations. Flows of world news are carried across the globe by the major printed news agencies and the leading agencies for visual news. Flows of entertainment and educational materials, which include recorded music, feature films, textbooks, and TV entertainment, are provided by the world's largest entertainment media companies. In addition to financial interests, global media have an impact on media content, politics, and culture. Like the Internet, global media are influenced by the culture and interests of the United States. In some ways, global media could be considered an extension of the American system. As the Internet becomes a broadband medium, it is increasingly taking on the characteristics of a mass medium rather than an interpersonal one. In the future, mass media trends could be extended to the Internet. For instance, a recent study of Dutch children's Internet usage revealed that they primarily used the Internet as a leisure medium to play games, watch video clips, and visit entertainment sites. Research on Americans, however, shows people primarily use the Internet to maintain social relationships through e-mail. This book presents information on some of the basic concepts of this subject. Contents: The Promise of Citizen Journalism, Freedom of Press and Responsible Journalism, Cyber Journalism, Legal and Ethical Issues, Theoretical Foundations of Communication, Regulations, Freedom, Intercultural Dimensions of Media, Ethics, Media Accountability, State and Media Accountability System, History of Broadcasting, Radio Broadcasting. *Global Trends in Teaching English Language and Literature*.
