Reality and Idea in the Early American Novel David H. Hirsch, 2021-03-22 No detailed description available for Reality and Idea in the Early American Novel *The Voices of Romance* Ann Dobyns, 1989 This study focuses on techniques of romance characterization and through stylistic analysis compares speech characteristics of parallel characters in Thomas Malory's *Le Morte Darthur* Philip Sidney's *New Arcadia* and Emily Brontë's *Wuthering Heights*

The Romantic Idea of the Golden Age in Friedrich Schlegel's Philosophy of History Asko Nivala, 2017-02-03 The nineteenth century Romantic understanding of history is often confused with the longing for the past Golden Age In this book the Golden Age is seen from a new angle by discussing it in the context of the works of Friedrich Schlegel who saw it not as bygone but to be produced in the future

William Morris and the Idea of Community Anna Vaninskaya, 2010-10-12 The great polymath William Morris and his contemporaries and followers from H Rider Haggard to H G Wells are the focus of this study Anna Vaninskaya draws upon a wide array of primary sources from working class fiction and articles in fringe socialist newspapers to historical treatises autobiographies and diaries in order to explore the many ways Victorians and Edwardians talked about community and modernity Vaninskaya's narrative moves from the realm of romance bestsellers and sniggering reviews to debates in weighty historical tomes and then to the headquarters of revolutionary parties to street corners and shabby lecture halls She demonstrates how in each domain the dream of community clashed with the reality of the modern state and market

The Idea of Europe in Literature Susanne Fendler, Ruth Wittlinger, 1999-09-11 The relevance of culture has recently enjoyed increasing recognition for the study of European integration and a European identity Appeals to a common European culture as well as appeals to different national cultures have been used respectively as a means to pursue political ends Paying tribute to literature's role as an important constituent part of a culture this collection of essays explores literary representations of Europe and its nation states and should be of particular value to anyone who is interested in cultural political or literary studies in the European context

Neocolonialism L. Santhosh Kumar, Minu A., Barnashree Khasnobis, Preetha M., Merrin R. S., 2026-01-22 Neocolonialism in contemporary discourse has emerged as a compelling analytical lens to revisit and reassess power structures global hierarchies and cultural narratives in a postcolonial world This volume explores the intricate and often obscured mechanisms through which neocolonial influence operates economically politically culturally and intellectually redefining the contours of sovereignty and autonomy in the modern era Scholars across disciplines in the Humanities and Social Sciences have increasingly turned their attention to the praxis of identifying and critiquing the subtle continuities of colonial ideologies under the guise of development globalization and aid The interdisciplinary and multidisciplinary approaches employed in this volume challenge conventional perspectives and propose new interpretative frameworks for

understanding neocolonial engagements in literature media policy and education Gothic Transgressions Ellen Redling, Christian Schneider, 2015 The articles in this volume discuss specific ways in which the Gothic transgresses boundaries be they historical spatial national aesthetic generic modal medial or sexual Offering a wide range in every respect from Proto to Post Gothic from mythical to digital from national to Globalgothic from metropolitan to EcoGothic from traditional to Candygothic from novel to film and from Shakespeare to Steampunk this collection aims to enrich as well as extend the scholarly debate on the Gothic as a multi faceted mode of expression that goes beyond limits and much like a vampire constantly refreshes itself by feeding on the lifeblood of topical issues Series Culture Research and Science Kultur Forschung und Wissenschaft Vol 19 Subject Popular Culture Literary Critic **The Italian Idea** Will Bowers, 2020-01-02 A dual perspective study of how English engagement with Italy and the work of Italian exiles in London radicalised Romantic poetry *The Idea of Tragedy in the Drama of the English Romantic Poets* John Michael Cawley, 1941 **The American Idea of England, 1776-1840** Jennifer Clark, 2016-04-01 Arguing that American colonists who declared their independence in 1776 remained tied to England by both habit and inclination Jennifer Clark traces the new Americans struggle to come to terms with their loss of identity as British and particularly English citizens Americans attempts to negotiate the new Anglo American relationship are revealed in letters newspaper accounts travel reports essays song lyrics short stories and novels which Clark suggests show them repositioning themselves in a transatlantic context newly defined by political revolution Chapters examine political writing as a means for Americans to explore the Anglo American relationship the appropriation of John Bull by American writers the challenge the War of 1812 posed to the reconstructed Anglo American relationship the Paper War between American and English authors that began around the time of the War of 1812 accounts by Americans lured to England as a place of poetry story and history and the work of American writers who dissected the Anglo American relationship in their fiction Carefully contextualised historically Clark s persuasive study shows that any attempt to examine what it meant to be American in the New Nation and immediately beyond must be situated within the context of the Anglo American relationship Cultural Interactions in the Romantic Age Gregory Maertz, 1998-02-05 It has been observed that the reevaluation of Romanticism is a special feature of post New Critical or revisionist criticism in America Constituting a lively ecumenical dialogue between literary historians and theorists and between critics based in comparative literature and national literature departments the essays in Cultural Interactions in the Romantic Age offer abundant proof that this process continues unabated Focusing on a broad range of interactive relations from 1750 to 1850 these essays reveal as factitious the national and linguistic borders erected within the Academy and strike a blow against the tendency of literary studies to ossify into arbitrary ethnocentric categories Cultural Interactions in the Romantic Age makes a strong argument for the position that literary activity in the Romantic Period is inseparable from international dialogue and appropriation Contributors include April Alliston Frederick Burwick Annette Wheeler Cafarelli James Engell Lilian R Furst David C Hensley Roberta Johnson

Changing Ideals in Modern Architecture, 1750-1950 Peter Collins, 1998 Changing Ideals in Modern Architecture revolutionized the understanding of modernism in architecture pushing back the sense of its origin from the early twentieth century to the 1750s and thus placing architectural thought within the broader context of The Idea of the Novel in Europe, 1600-1800 Ioan Williams, 1979-05-24 *Zeitgeist - How Ideas Travel* Maïke Oergel, 2019-03-18 This book investigates the emergence of the modern concept of zeitgeist the notion of a pervasive contemporary coherence in the late 18th century It traces zeitgeist's descent from genius saeculi and investigates its association with public spirit and public opinion before surveying its prominence around the Wars of Liberation in Germany and during the politically restless 1820s in England This trajectory shows that zeitgeist emerged from the 18th century discourses about culture and the public functioning of social collectives Under the impact of the French Revolution the term came to describe social processes of political and cultural challenge Zeitgeist was discussed as a social dynamic in which emerging elites disseminate new ideas which find enough public approval to influence cultural and political behaviour and practice These findings modify the view that zeitgeist eludes critical grasp and is mainly invoked for manipulative purposes by showing that the zeitgeist discussions around 1800 contributed to the formation of modern politics and capture key aspects of how ideas are disseminated within societies and across borders providing a way of reading history horizontally
