Choosing and Using Fiction and Non-Fiction 3-11 Margaret Mallett, 2010-07-02. Winner of the United Kingdom Literacy Association's Author Award 2011 for its contribution to extending children's literacy. Praise for the book: 'This book is about making readers. A compact summary of its contents would not do it justice. It is the account of a life's work and it deserves thanks and readers.' Margaret Meek. Books for Keeps online. Number 185, November 2010. 'This book is a cornucopia of varied pleasures offering something for all tastes, presented with an awareness of the complexities of the field and communicated with commitment, enthusiasm and deep knowledge.' Eve Bearne. English 4-11, the primary school journal of The English Association, Number 42, Summer 2011. 'Choosing and Using Fiction and Non-Fiction 3-11 is a guide to the many kinds of text we want children to encounter, use and enjoy during their nursery and primary school years. So children's non-fiction literature, including autobiography, biography, information and reference texts, is given equal status with fiction, nursery rhymes, picturebooks, novels, traditional tales, playscripts and poetry. The author addresses important issues and allows the voices of teachers, reviewers and children to be heard. The book supports teachers as they help children on their journey to becoming insightful and critical readers of non-fiction and sensitive and reflective readers of fiction. It also contains suggestions for practice which are in the spirit of the more flexible and creative approach to learning towards which primary schools are moving. It includes help on using criteria to select quality texts of all kinds, annotated booklists for each kind of text for different age groups, suggestions for keeping a balance between print and screen-based texts, case studies showing teachers and children using texts in interesting and imaginative ways to support learning in English lessons and across the curriculum, advice on developing children's visual and multimodal literacy, guidance on using the school library and embedding study skills in children's wider purposes and learning, critiques of key theoretical perspectives and research projects. Although the main readership will be primary and student teachers, it is hoped that the book will be of interest and use to anyone concerned with the role of texts in children's learning.'
