While building on the Companion's existing strengths, Tom Jaine has taken the opportunity to update the text and alert readers to new perspectives in food studies. There is new coverage of attitudes to food, consumption, production, and perception, such as food and genetics, food and sociology, and obesity. New entries include terms such as convenience foods, drugs, and food. Ethiopia, leftovers, medicine, and food, pasta, and many more. There are also new entries on important personalities who are of special significance within the world of food, among them Clarence Birdseye, Henri Nestlé, and Louis Pasteur. In its new edition, the Companion maintains its place as the foremost food reference resource for study and
