All In The Education Of General David Petraeus:

All In Paula Broadwell, Vernon Loeb, 2012-01-24 General David Petraeus is the most transformative leader the American military has seen since the generation of Marshall In the New York Times bestseller *All In* military expert Paula Broadwell examines Petraeus's career his intellectual development as a military officer and his impact on the U S military Afforded extensive access by General Petraeus his mentors his subordinates and his longtime friends Broadwell reported on the front lines of fighting and at the strategic command in Afghanistan to chronicle the experiences of this American general as they were brought to bear in the terrible crucible of war *All In* draws on hundreds of hours of exclusive interviews with Petraeus and his top officers and soldiers to tell the inside story of this commander's development and leadership in war When Petraeus assumed command in Afghanistan in July 2010 the conflict looked as bleak as at any moment in America's nine years on the ground there Petraeus's defining idea counterinsurgency was immediate put to its most difficult test the hard lessons learned during the surge in Iraq were to be applied in a radically different theater *All In* examines the impact in Afghanistan of new counterinsurgency as well as counterterrorism strategies through the commands of several Petraeus protégés Broadwell examines his evolution as a soldier from his education at West Point in the wake of Vietnam to his earlier service in Central America Haiti Kuwait Bosnia and Iraq *All In* also documents the general's role in the war in Washington going behind the scenes of negotiations during policy reviews of the war in Afghanistan in Congress the Pentagon and the White House Broadwell ultimately appraises Petraeus's impact on the entire U S military Thanks to this man's influence the military is better prepared to fight using a comprehensive blend of civil military activities As America surveys a decade of untraditional warfare this much is clear The career of General David Petraeus profoundly shaped our military and left an indelible mark on its rising leaders The Theory and Practice of Irregular Warfare Andrew Mumford, Bruno C

Reis, 2013-11-26 This book offers an analysis of key individuals who have contributed to both the theory and the practice of counterinsurgency COIN Insurgencies have become the dominant form of armed conflict around the world today The perceptible degeneration of the occupations of Iraq and Afghanistan into insurgent quagmires has sparked a renewal of academic and military interest in the theory and practice of counterinsurgency In light of this this book provides a rigorous analysis of those individuals who have contributed to both the theory and practice of counterinsurgency warrior scholars These are soldiers who have bridged the academic military divide by influencing doctrinal and intellectual debates about irregular warfare Irregular warfare is notoriously difficult for the military and scholarly understanding about this type of warfare is also problematic especially given the residual anti intellectualism within Western militaries Thus *The Theory and Practice of Irregular Warfare* is dedicated to analysing the best perceivable bridge between these two worlds The authors explore the theoretical and practical contributions made by a selection of warrior scholars of different nationalities from periods ranging from the French colonial wars of the mid twentieth century to the Israeli experiences in the Middle East from

contributions to American counter insurgency made during the Iraq War to the thinkers who shaped the US war in Vietnam This book will be of much interest to students of counterinsurgency strategic studies defence studies war studies and security studies in general **Professional Journal of the United States Army** ,2012 *L'Affaire Petraeus* Wayne Madsen,2013-05-23 This is the first overview of the scandal that took down CIA director and the much idolized General David Petraeus As with all major scandals there are back stories to the Petraeus Affair and they are revealed here **Military Review** ,2016 **Quicklet on Paula Broadwell and Vernon Loeb's All In: The Education of General David Petraeus** Tom Oliver,2012-07-30 ABOUT THE BOOK The printing press is the greatest weapon in the armory of the modern commander T E Lawrence Lawrence of Arabia Paula Broadwell is a West Point grad former active duty officer current reservist and a defense intellectual who is conducting research at Harvard s Center for Public Leadership and pursuing a doctorate at King s College London Broadwell has spent over fifteen years working in the fields of counterterrorism and counterinsurgency She already holds two master s degrees is married with two children and lives in North Carolina She met General Petraeus at a speaking engagement and dinner at Harvard and the two hit it off given Broadwell s background as a soldier and her interest in public policy She decided to do a case study of Petraeus s leadership for her doctoral thesis in that discipline but when the general was given command of the Afghanistan theater Broadwell decided to travel to Kabul with him altering her thesis focus somewhat EXCERPT FROM THE BOOK It s sad to think that had the US not gotten involved in Iraq a very different Afghan war might have been fought The first thing that should have been done differently would have been to plan and execute the Battle of Tora Bora more effectively using enough US troops so that al Qaeda fighters including their leader Osama Bin Laden could not escape into Pakistan Petraeus believed that perhaps the US might have won in Vietnam if we had stayed for the long haul and if we had had a Vietnamese Jose Napoleon Duarte One wonders first what Petraeus might mean by a long haul given that the US fought in Vietnam for at least eight years He also seems oblivious to the differences between these wars The Salvadoran civil war was motivated in large part by inequitable land distribution the Vietnam conflict traced back to a war of independence against the Japanese and later the French Broadwell mentions Operation Just Cause the American invasion of Panama in 1989 While summarizing this invasion which she paints as the effort to put the criminal Noriega in jail and protect the canal democracy and Panamanians from an unnamed threat the author leaves out the untidy facts of significant civilian casualties and the chaos and economic hardship that existed for years after the military action Buy the book to continue reading Follow hyperink on Twitter Visit us at www.facebook.com/hyperink Go to www.hyperink.com to join our newsletter and get awesome freebies CHAPTER OUTLINE Background and Basics About the Author s Overall Summary Discussion and Analysis Chapter by Chapter Commentary Summary Key Information List of Important People Key Terms Definitions Interesting Related Facts References Sources Additional Reading **Reimagining The National Security State** Karen J. Barela,2016-03-09 Unmanned combat air vehicles or in common parlance drones have become a prominent instrument in US efforts to counter an objective and subjective cross border terrorist threat with lethal force As a result critical questions abound on the legitimacy of their use In a series of multidisciplinary essays by scholars with an extensive knowledge of international norms this book explores the question of legitimacy through the conceptual lenses of legality morality and efficacy it then closes with the consideration of a policy proposal aimed at incorporating all three indispensable elements The importance of this inquiry cannot be overstated Non state actors fully understand that attacking the much more powerful state requires moving the conflict away from the traditional battlefield where they are at an enormous disadvantage Those engaging in terrorism seek to goad the ruling government into an overreaction or abuse of power to trigger a destabilization via an erosion of its legitimacy Thus defending the target of legitimacy in this case insuring the use of deadly force is constrained by valid limiting principles represents an essential strategic interest This book seeks to come to grips with the new reality of drone warfare by exploring if it can be used to preserve rather than eat away at legitimacy After an extensive analysis of the three key parameters in twelve chapters the practical proposition of establishing a Drone Court is put forward and examined as a way of pursuing the goal of integrating these essential components to defend the citizenry and the legitimacy of the government at the same time

Bolger,2014-11-11 A commander s compelling behind the scenes view of the United States at war after 9 11 from high level strategy to combat on the ground The Wall Street Journal Over his thirty five year career Daniel P Bolger rose through the ranks of the army infantry to become a three star general commanding in both Afghanistan and Iraq Perhaps more than anyone else he was witness to the full extent of these wars from September 11th to withdrawal from the region Not only did Bolger participate in top level planning and strategy meetings he also regularly carried a rifle alongside soldiers in combat actions Writing with hard won experience and unflinching honesty Bolger argues that while we lost in Iraq and Afghanistan we did not have to Intelligence was garbled Key decision makers were blinded by spreadsheets or theories And we never really understood our enemy Why We Lost is a timely forceful and compulsively readable account from a fresh and authoritative perspective filled with heartfelt stories of soldiers and Marines in firefights and close combat It weighs in mightily to the ongoing debate over how the United States should wage war The Washington Post

OVEREXPOSED Paolo Cirio, Bruce Sterling, Nato Thompson, 2019-02-24 *OVEREXPOSED* is composed of a series of nine unauthorized photos of high ranking U S intelligence officials of the NSA CIA NI and FBI who were related to Edward Snowden s revelations The appropriated material was found by monitoring photos and selfies published on Internet public platforms without the control of the officials The images were reproduced with the street art HD Stencils technique and they were disseminated onto public walls throughout major cities The artwork satirizes the era of ubiquitous surveillance and overly mediated political personas by exposing the officials accountable for secretive mass surveillance and over classified intelligence programs New modes of circulation appropriation contextualization and technical reproduction of images are integrated into this artwork **Parameters**, 2016 *Counterinsurgency* Douglas Porch, 2013-07-11 Controversial new history of counterinsurgency which challenges its claims as an effective strategy of waging war The New Counter-insurgency Era in Critical Perspective Celeste Ward Gventer, M.L.R Smith, 2014-01-21 The notion of counter insurgency has become a dominant paradigm in American and British thinking about the wars in Iraq and Afghanistan This volume brings together international academics and practitioners to evaluate the broader theoretical and historical factors that underpin COIN providing a critical reappraisal of counter insurgency thinking **Social Inequality, Economic Decline, and Plutocracy** Dale L. Johnson, 2017-02-14 This book aims to further an understanding of present day America by exploring counter hegemony to the rule of capital and offering guidelines for strategizing change proceeding from the dialectic of What Is and What Ought to Be The author analyzes neoliberal global order and its political expressions through discussions of the dominance of finance capital in the late twentieth century the triumph of ideology the closing of avenues to reform the problem of the captive state and a sociological analysis of rule by divide and conquer The book concludes with a look at the history of movement politics in culture arts economics and politics It resounds with a hope that challenges to hegemony can use many paths to change of which the electoral path is but one of many fronts in the long term struggle for radical reform **The Long War** David Loyn, 2025-09-23 Just as U S soldiers and diplomats pulled out of Afghanistan supposedly concluding their role and responsibility in the two decade conflict the country fell to the Taliban In *The Long War* award winning BBC foreign correspondent David Loyn uncovers the political and military strategies and failures that

prolonged America's longest war Three American presidents tried to defeat the Taliban sending 150 000 international troops at the war's peak with a trillion dollar price tag But early policy mistakes that allowed Osama bin Laden to escape made the task far more difficult Deceived by easy victories they backed ruthless corrupt local allies and mispent aid The story of The Long War is told by the generals who led it through the hardest years of combat as surges of international troops tried to turn the tide Generals which include David Petraeus Stanley McChrystal Joe Dunford and John Allen were tested in battle as never before With the reputation of a warrior monk McChrystal was considered one of the most gifted military leaders of his generation He was one of two generals to be fired in this most public of commands Holding together the coalition of countries who joined America's fight in Afghanistan was just one part of the multi dimensional puzzle faced by the generals as they fought an elusive and determined enemy while responsible for thousands of young American and allied lives The Long War goes behind the scenes of their command and of the Afghan government The fourth president to take on the war Joe Biden ordered troops to withdraw in 2021 twenty years after 9 11 just as the Taliban achieved victory leaving behind an unstable nation and an unforeseeable future
