Compelling Convictions Terry L. Brensinger, Jennifer Lancaster, Alan Robinson, 2024-06-25 A fresh look at our core values In the twenty years since a group of Brethren in Christ pastors educators administrators and laypeople first met to identify ten core values for the North American church much has changed including the continuing decline of the church in the west dynamic social movements for racial gender and economic justice vast advances in technology and a worldwide pandemic With so much happening on both the national and international stages it seems vital that we as Brethren in Christ prayerfully reflect not only on our core values and their application but on how those values might help our churches engage a dramatically new social context Are these values merely sentimental slogans Or do they constitute compelling convictions genuine guiding lights orienting us and motivating our mission in a rapidly changing world The answer to that all important question depends largely on how we use them In this forward looking book essays from Brethren in Christ pastors and leaders from across the globe call us into the future of the church to unleash our creative energies roll up our sleeves and put these core values to good use **Toward the Millennium** Peter Schäfer, 2018-09-24 This collection of 16 articles represents a selection of the papers delivered in the course of a seminar 1995 1996 at the Institute for Advanced Study in Princeton and its concluding joint symposium held at the Institute and Princeton University Wide ranging in scope the volume covers messianic expectations from biblical times up to modern and contemporaneous adaptations whereby the focus lies on the messianic concept within Judaism diversity and variety of messianic expectations in antiquity messianic movements at the time of the Crusades and around the fifth millennium 1240 the Pseudo Messiah Sabbatai Zvi in the early modern period the philosophers Hermann Cohen Franz Rosenzweig and Walter Benjamin with respect to their thinking about messianism as well as the Lubavitch movement Also included are investigations on pagan Graeco Roman writings and messianic strands in the medieval and baroque Christian context The section on the modern period contains contributions dealing with the Ahmaddiyya movement in India messianic currents in the socio political culture of the Weimar Republic as

well as certain messianic aspects in the very recent so called Branch Davidian community in Waco Texas The broad spectrum of stimulating analyses provides a fresh re evaluation of an apparently timeless phenomenon **General Lewis B. Hershey and Conscientious Objection during World War II** Nicholas A. Krehbiel,2012-11-01 During World War II the United States drafted 10 1 million men to serve in the military Of that number 52 000 were conscientious objectors and 12 000 objected to noncombatant military service Those 12 000 men served the country in Civilian Public Service the program initiated by General Lewis Blaine Hershey the director of Selective Service from 1941 to1970 Despite his success with this program much of Hershey s work on behalf of conscientious objectors has been overlooked due to his later role in the draft during the Vietnam War Seeking to correct these omissions in history Nicholas A Krehbiel provides the most comprehensive and well rounded examination to date of General Hershey s work as the developer and protector of alternative service programs for conscientious objectors Hershey whose Selective Service career spanned three major wars and six presidential administrations came from a background with a tolerance for pacifism He served in the National Guard and later served in both World War I and the interwar army A lifelong military professional he believed in the concept of the citizen soldier the civilian who responded to the duty of service when called upon Yet embedded in that idea was his intrinsic belief in the American right to religious freedom and his notion that religious minorities must be protected What to do with conscientious objectors has puzzled the United States throughout its history and prior to World War II there was no unified system for conscientious objectors The Selective Service Act of 1917 only allowed conscientious objection from specific peace sects and it had no provisions for public service In action this translated to poor treatment of conscientious objectors in military prisons and camps during World War I In response to demands by the Historic Peace Churches the Brethren Mennonites and the Society of Friends and other pacifist groups the government altered language in the Selective Service Act of 1940 stating that conscientious objectors should be assigned to noncombatant service in the military but if opposed to that would be assigned to work of national importance under civilian direction Under the direction of President Franklin D Roosevelt and with the cooperation of the Historic Peace Churches Hershey helped to develop Civilian Public Service in 1941 a program that placed conscientious objectors in soil conservation and forestry work camps with the option of moving into detached services as farm laborers scientific test subjects and caregivers janitors and cooks at mental hospitals Although the Civilian Public Service program only lasted until 1947 alternative service was required for all conscientious objectors until the end of the draft in 1973 Krehbiel delves into the issues of minority rights versus mandatory military service and presents General Hershey s pivotal role in the history of conscientious objection and conscription in American history Archival research from both Historic Peace Churches and the Selective Service makes General Lewis B Hershey and Conscientious Objection during World War II the definitive book on this subject **The European Reformations** Carter Lindberg,2011-09-13 Combining seamless synthesis of original material with updated scholarship The European Reformations 2nd edition provides the most

comprehensive and engaging textbook available on the origins and impacts of Europe's Reformations and the consequences that continue to resonate today A fully revised and comprehensive edition of this popular introduction to the Reformations of the sixteenth century Includes new sections on the Catholic Reformation the Counter Reformation the role of women and the Reformation in Britain Sets the origins of the movements in the context of late medieval social economic and religious crises carefully tracing its trajectories through the different religious groups Succeeds in weaving together religion politics social forces and the influential personalities of the time in to one compelling story Provides a variety of supplementary materials including end of chapter suggestions for further reading along with maps illustrations a glossary and chronologies **Wild**

Words Donna Coates, George Melnyk, 2009 As the first collection of literary criticism focusing on Alberta writers Wild Words establishes a basis for identifying Alberta fiction poetry drama and nonfiction as valid subjects of study in their own right The idea for this collection began with 100 years of literary tradition for Alberta's centenary However Alberta's literary roots go back much farther than that to the oration of First Nation's peoples and the colonizing exploration and travel literature of the 18th and 19th centuries **Religious Warfare in Europe 1400-1536** Norman Housley, 2008-11-06 Religious warfare has

been a recurrent feature of European history In this intelligent and readable study the distinguished Crusade historian Norman Housley describes and analyses the principal expressions of holy war in the period from the Hussite wars to the first generation of the Reformation The context was one of both challenge and expansion The Ottoman Turks posed an unprecedented external threat to the Christian republic while doctrinal dissent constant warfare between states and rebellion eroded it from within Professor Housley shows how in these circumstances the propensity to sanctify warfare took radically different forms At times warfare between national communities was shaped by convictions of sacred patriotism either in defending God given native land or in the pursuit of messianic programmes abroad Insurrectionary activity especially when driven by apocalyptic expectations was a second important type of religious war In the 1420s and early 1430s the Hussites waged war successfully in defence of what they believed to be God's Law And some frontier communities depicted their struggle against non believers as religious war by reference to crusading ideas and habits of thought Professor Housley pinpoints what these conflicts had in common in the ways the combatants perceived their own role their demonization of their opponents and the ongoing critique of religious war in all its forms This is a major contribution to both Crusade history and the study of the Wars of Religion of the early modern period Professor Housley explores the interaction between Crusade and religious war in the broader sense and argues that the religious violence of the sixteenth and seventeenth centuries was organic in the sense that it sprang from deeply rooted proclivities within European society
